Thomson's Concise Medical Dictionary

W. A. R. THOMSON, M.D.
Formerly Editor of The Practitioner

1973 448 pages £1.50

The aim of this dictionary is to provide the doctor, and all those who work with him—whether secretary, nurse, technician, as well as medical students, pharmacists and scientists in the medical field—with a short concise dictionary containing definitions of the vast majority of words which they will encounter during the course of their daily duties.

An extract from the preface

Appendix I  Appendix II
Tables  Weights and Measures
Table of Arteries  Metric System
Table of Muscles  Imperial System
Table of Nerves  Prefixes for SI Units
Table of Veins  Equivalents of Imperial and Metric Weights and Measures

When pain-free nights can be prescribed
(in the treatment of certain rheumatic diseases).

how much easier are the days that follow

... in those rheumatic diseases accompanied by tissue inflammation pain is often worse at night or in the early morning. This trial demonstrates the particular effectiveness of indomethacin in relieving these symptoms.

Practitioner, 1972, 208, 248 (Feb)

Clinical evidence shows that 'Indocid' Suppositories at night can often give up to 13 to 16 hours' relief. Supportive daytime dosage either with 'Indocid' Suppositories or Capsules can give 24-hour control of pain and stiffness.

Supplied as suppositories containing 100 mg indomethacin/MSD, as capsules containing 25 mg and 50 mg indomethacin/MSD, and as a suspension, containing in each 5ml 25mg indomethacin/MSD. Detailed information is available to physicians on request.

BRITISH GENERAL PRACTICE

*By D. T. C. BARLOW, M.R.C.G.P., O.St.J.*
General Practitioner, North Devon

In his preface Sir Edward Muir writes:

‘... life can offer little better than the work of a general practitioner. This book gives confirmation to this view. I have greatly enjoyed reading it and would recommend it not only to those about to enter general practice but also to those of us who work in other specialities in medicine.’

SEPTIN TACTICS

first
SEPTIN ensures coverage against all likely bacterial pathogens.

fast
SEPTIN rapidly obtains effective blood, urine and kidney tissue levels with simple twice daily dosage.

decisive
SEPTIN crushes bacterial resistance with a bactericidal action which differs essentially from that of the antibiotics.

they've proved superior in urinary tract infections

A good friend in

Cystitis, or indeed any infection of the urinary tract, needs immediate attention. In all cases you can depend on Amoxil for routine treatment. Its broad spectrum activity and high urine concentrations deal decisively with the principal urinary pathogens while its outstanding oral absorption ensures that bactericidal serum levels are available to combat potential ascending infection into renal tissue.

Amoxil can be prescribed with confidence in women of child-bearing age – and especially in pregnancy where choice of treatments is limited. Having the safety of a penicillin, Amoxil is equally suitable for children, the elderly and those patients requiring long-term therapy.

In addition Amoxil has highly acceptable oral presentations, a convenient t.d.s. dosage and is one of the most economic treatments available in this indication.

Amoxil is indeed a good friend in urinary tract infections. To both you and your patients.

Further information on Amoxil (regd) is available from: Bencard, Freepost, Great West Road, Brentford, Middlesex.

Prescribing Information.
Dosage: Adults 250 mg three times a day. Children – up to 10 years: 125 mg three times a day. In the case of severe infections the dosage should be doubled.
Presentation: Amoxil capsules 250 mg. Amoxil syrup 250 mg/5 ml, 100 ml bottle. Amoxil syrup 125 mg/5 ml, 100 ml bottle. Amoxil Paediatric Suspension 125 mg/1.25 ml, 20 ml bottle with pipette. Amoxil presentations contain amoxycillin as the trihydrate.

Contra-indication: Amoxil is a penicillin and should not be given to penicillin-sensitive patients.
Side effects: No serious side effects have been reported in extensive clinical trials. Those side effects which were encountered were mild and of a transitory nature.

URTI Chest infections
UTI Skin and soft tissue infections

AMOXIL

an excellent antibiotic for routine treatment
urinary infections.
ESBATAL
(Bethanidine Sulphate)
Controls all grades of hypertension

Simple Dosage
Few Side Effects
Low Cost
Effective Control of Hypertension

BATTLE OF BRITAIN
Give for those who Gave

Thousands of our finest men and women in the Royal Air Forces have given their service, their health, and in many cases, their lives for their Country and in defence of Freedom. Today many of them and their dependants are in urgent need of the R.A.F. Association's Welfare Service. Please give all you can for an emblem during Wings Week or send a donation direct to Headquarters.

GENERAL PRACTICE VACANCY
Young graduate of British University, male or female, interested in progress of general-practice research and possible teaching. Parity as eighth partner after twelve months. Most essential general-practice developments are being implemented by the WEST GRANTON MEDICAL GROUP, EDINBURGH EH5 2NT. For further particulars apply to the Administrative Secretary. For the convenience of applicants from the South, initial interviews can be arranged with one of the partners (Dr E. V. Kuenssberg) in London.

Required in 1973, male graduate of a British University as 5th partner in forward-looking practice. Young group. Good financial prospects. Full medical facilities and staff. 50% new town Health Centre, 50% purpose-built village premises. Housing available.

Drs Thompson, Hurly, Sukumaran and Edgar, 3, Woodfield, Peterlee, Co. Durham.

COLLEGE TUTOR
Applications are invited for the post of Honorary College Tutor for the Taunton Clinical Area. The appointment will be made by the Council of the Royal College of General Practitioners on recommendations by the South-west England Faculty Board.

Details are available from Dr. Sheila E. Fraser, F.R.C.G.P., 20a Dragon's Well Road, Henbury, Bristol. The closing date is September 1, 1973.
M.R.C.PSYCH. & D.P.M. PART C.
RESIDENTIAL REVISION COURSE
at the University of Sussex,
Falmer, Brighton
9th to 15th September 1973.
(Approved by the British Postgraduate Medical Federation)
Individual approval can be given under Section 63.
Seminars and tutorials will cover the entire examination syllabus with emphasis on case presentation and examination techniques, including multiple choice questions, essay-type questions and oral examination. Handouts will be given. The course will also form comprehensive revision for psychiatrists already in practice and useful training in psychiatry for General Practitioners and Vocational Trainees in General Practice.
Fees: Residential £45.00.
Non-residential £15.00.
(Inc. Registration fee of £10).
Refund of course fees in accordance with HM(67)27 subject to approval by employing authority.
Register early as reading lists and question papers will be sent.
Course Organisers: Dr S. Jacobson & Dr M. S. Perimpanayagam.
Application forms from Mrs. V. Woodward, Postgraduate Secretary, Beechmont, St. Francis Hospital, Haywards Heath, Sussex.

M.R.C.G.P. COURSE
A course for candidates for membership will be held at the Warwickshire Postgraduate Medical Centre, Stoney Stanton Road, Coventry, from 17–21 September, 1973. Multiple choice questions, modified essay questions and traditional essay questions are featured in the course which is recognised under Section 63. Married and single accommodation available. Further details from Dr R. E. Smith, Warwickshire Postgraduate Medical Centre, Stoney Stanton Road, Coventry CV1 4PG.

The British Postgraduate Medical Federation has now published its programme of COURSES FOR GENERAL PRACTITIONERS for the period September to December, 1973. These programmes will be distributed automatically to General Practitioners in the National Health Service in the four Metropolitan Regional Hospital Areas, through their local Executive Councils.
Any other Practitioner wishing to receive a copy of this programme, should forward a stamped, addressed, Foolscap envelope to:
G.P. DEPARTMENT,
BRITISH POSTGRADUATE MEDICAL FEDERATION,
33 MILLMAN STREET,
LONDON WC1N 3EJ

We require a fifth partner who should be a male British graduate, preferably vocationally trained and under 30 years of age. We have modern premises, appointment system, nurses and health visitors attached, and seven clerical and receptionist staff, there is a busy and efficient general practitioner hospital, one mile from surgery, with full diagnostic facilities, and staffed by teaching hospital and regional consultants in all specialties, with whom we enjoy a close working relationship. The applicant should view general practice with enthusiasm and aspire to be a M.R.C.G.P. Six weeks' leave per annum and one week study leave. A short assistantship is envisaged. Please write to Dr Russell, The Surgery, Edenbridge, Kent.

Opinions expressed in The Journal of the Royal College of General Practitioners and the supplements should not be taken to represent the policy of the Royal College of General Practitioners unless this is specifically stated.
