

**When  
depression  
is interwoven  
with anxiety**

Prothiaden is an anti-depressant which not only treats depression, but also relieves the anxiety so often associated with depressive illness. A recent study\* has shown Prothiaden to be superior to amitriptyline in the treatment of depressive disorders, and to be much better tolerated. **With Prothiaden, your depressed patient will have a lot more good days than bad ones. More of your patients will recover.**

**Prothiaden**  
**breaks the web of depressive illness**

\**Psychopharmacologia*, 1971, 19, 153  
Prothiaden is dothiepin hydrochloride in capsules of 25 mg.  
Full information is available from  
The Crookes Laboratories Ltd., Basingstoke, Hants.

**actively  
heals  
peptic ulcer**

# **GEFARNIL**

**the systemic treatment  
for peptic ulcers**

Gefarnil is unique. Its action is systemic. Gefarnil treats peptic ulcer by acting on the ulcer via the blood stream. Its action is quite specific. By repairing the tissue damage of gastric and duodenal ulceration, Gefarnil heals the ulcer.

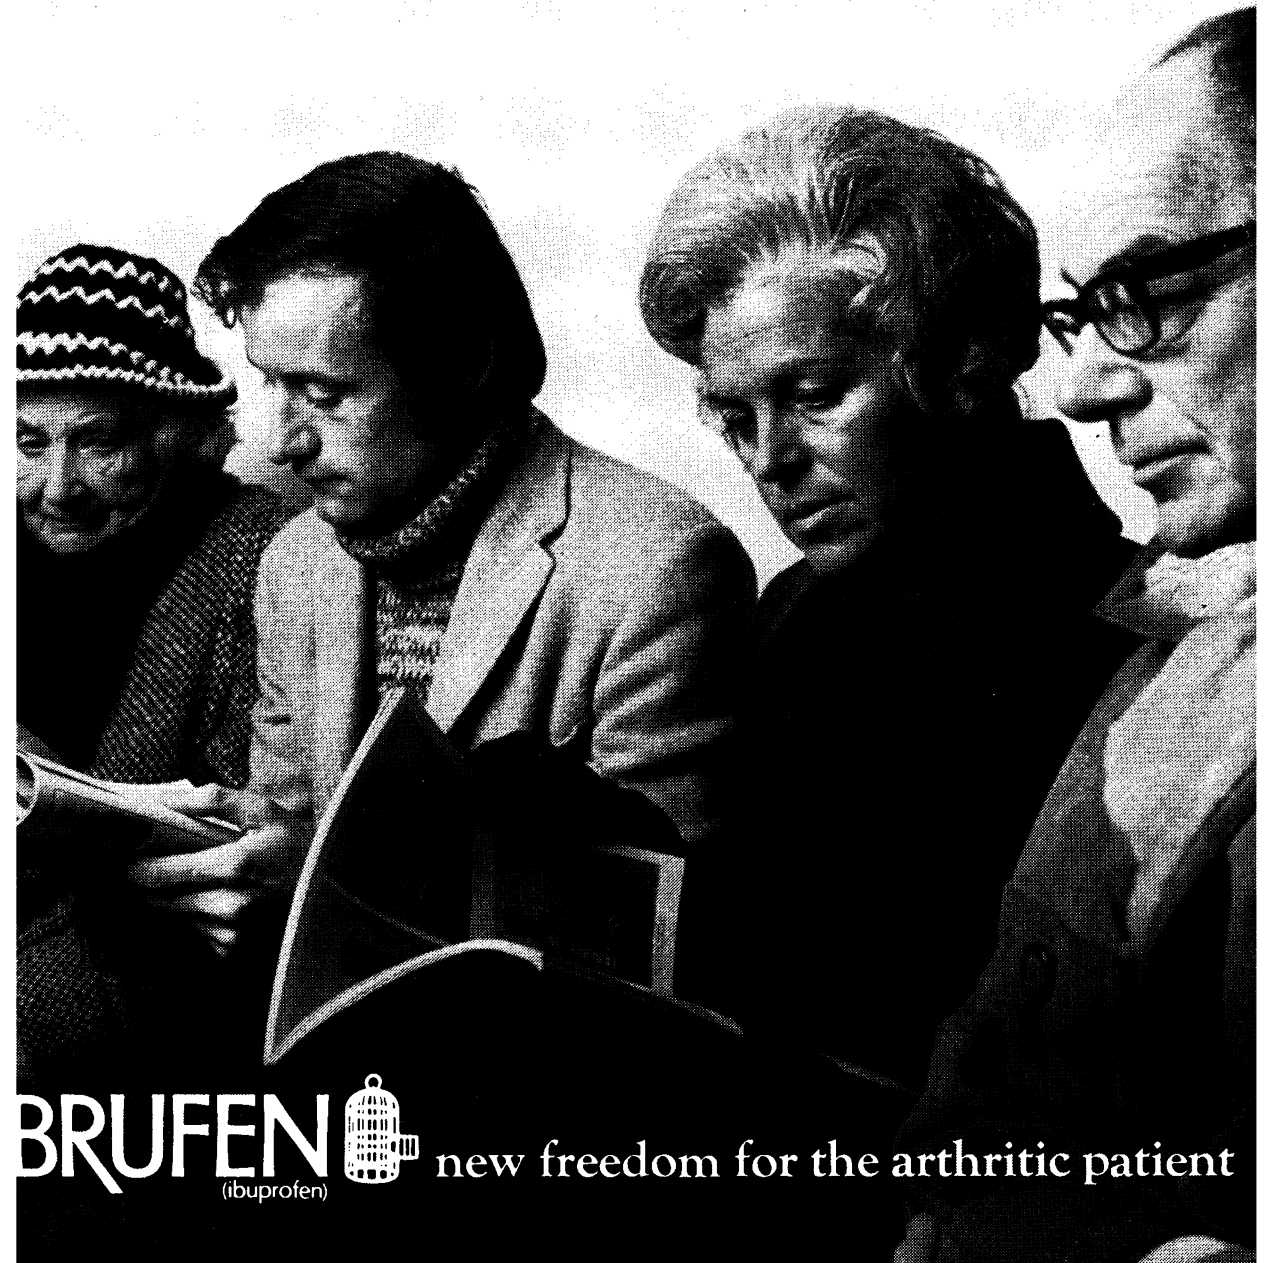

Gefarnil is gefarnate in capsules of 50 mg. Gefarnil is manufactured under licence from Istituto de Angeli SpA, Milan, Italy by The Crookes Laboratories Ltd., Basingstoke, Hants, from whom full information is available.

# How many of your arthritic patients could benefit from Brufen?

A recent study\* in nearly 1000 patients has shown very clearly the extent to which Brufen is effective in the treatment of arthritis. On Brufen, 70% of these arthritic patients improved – and improved consistently in the *real* terms of less pain, greater mobility. Experience shows that 7 out of every 10 arthritic patients respond well to Brufen.

Brufen is ibuprofen in tablets of 200 mg; also as a suspension. Full information is available from Medical Marketing, The Boots Company Ltd., Nottingham.  \*Practitioner, 1971, 207, 343

**BRUFEN**  new freedom for the arthritic patient  
(ibuprofen)

**Crookes  
ACTH/CMC  
flows freely  
without  
warming**

This is the ACTH that flows freely from the moment it comes out of the refrigerator. Crookes ACTH/CMC avoids the discomfort that is often associated with ACTH gel or depot tetracosactrin. Crookes ACTH/CMC is unique. It combines natural ACTH with carboxymethylcellulose which makes it easier to administer and more comfortable for the patient. Suitable for asthma, rheumatoid arthritis and multiple sclerosis, when ACTH therapy is required. Subcutaneous injection presents no problem – so Crookes ACTH/CMC can easily be self-administered by the patient.

**Crookes  
ACTH/CMC**

Vials of 5 ml., 20 i.u./ml. and 40 i.u./ml.  
Further information is available on request.  
The Crookes Laboratories Limited,  
Basingstoke, Hants.

# OEDEMA APRINOX

Whatever the cause of the oedema – whether of cardiac, renal, hepatic, premenstrual or other origin – Aprinox induces a profound but easily manageable diuresis extended conveniently over a period of 12 to 18 hours. Whilst the ratio of sodium and chloride excretion closely resembles the normal pattern, potassium excretion remains low. Aprinox is a reliable diuretic and, because of its gentle action, highly acceptable to the patient. Aprinox: tablets of Bendrofluazide B.P. 5 mg (also 2.5 mg)

**APRINOX 5mg.**  
the diuretic that leaves you  
and your patient in control

Full information is available on request from  
Medical Marketing, The Boots Company Ltd., Nottingham.

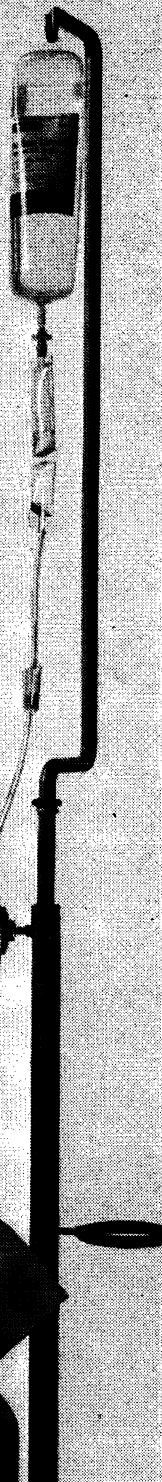

# The Polyfusor leaves less to chance

Extraneous particles in solutions for intravenous use are a potential hazard to the patient. Among the most dangerous of these particles are those of cellulose fibre, rubber and glass – contaminants commonly found in infusion fluids enclosed in rubber-capped glass bottles.

Polyfusor Solutions are pyrogen-free fluids for intravenous infusion enclosed in disposable, semi-rigid containers of neutral polyethylene. Polyfusor Solutions are uncontaminated by particles of glass, rubber, fibre and other potentially noxious debris which derive from the conventional glass bottle and closure. They are relatively free from significant particulate matter of any nature.

Disposable, light, compact, easy to handle, simple to use, and with a full range of infusion solutions of exceptionally high quality and stability, the Polyfusor represents a significant advance in intravenous therapy.

Full information is available from Medical Products Marketing, Boots Pure Drug Co. Ltd., Nottingham.

## RECENT JOURNAL SUPPLEMENTS

### **General practitioners and abortion**

by

**ANN CARTWRIGHT and MARJORIE WAITE**

This report was Supplement No. 1 to the *Journal of the Royal College of General Practitioners* and was published in August 1972.

This is one of the most detailed and up-to-date surveys of its kind so far published.

It is available from the Longman Group Ltd., 43-45 Annandale Street, Edinburgh EH7 4HT, price 75p.

### **General practitioners and contraception**

by

**ANN CARTWRIGHT and MARJORIE WAITE**

This report was Supplement No. 2 to the *Journal of the Royal College of General Practitioners* and was published in September 1972.

This topical survey is the companion paper to *General practitioners and abortion*, by the same authors.

It is also available from the Longman Group Ltd., 43-45 Annandale Street, Edinburgh EH7 4HT, price 75p.

# TEACHING PRACTICES

by

DONALD IRVINE, M.D., F.R.C.G.P.

One of the most important developments in medical education in recent years has been the introduction of three-year training programmes for general practice. *Teaching Practices* outlines many of the characteristics of the teachers, and, particularly, the practices where this work is being done.

This is the most detailed and authoritative report on this subject so far published and introduces a new system of scoring teaching practices.

Copies are available now from the Longman Group Ltd., 43-45 Annandale Street, Edinburgh EH7 4AT, Scotland, price £1.00 (\$3.50).

# EPIDEMIOLOGY IN COUNTRY PRACTICE

by

W. N. PICKLES

This classic book from general practice has not been available for many years.

A special facsimile of the 1939 edition has now been published by the Royal College of General Practitioners in a *limited edition* of 1,000 copies. Any profits will go to the college appeal.

Copies are available from the address below and orders will be dealt with in turn while stocks last.

Cheques should be made payable to the Royal College of General Practitioners and orders sent to: Bookpack Department, The Royal College of General Practitioners, Kitts Croft, Writtle, Chelmsford CM1 3EH. Price: £3 (£4, overseas) post free, cash with order.

## JOURNAL PUBLICATIONS
