What HRT ought to be

HRT in a single daily tablet

Schering Health Care Ltd, The Brow, Burgess Hill, West Sussex, RH15 9NE. Telephone 0444 232323
More GPs are prescribing 'Zestril' for more patients than ever before

Consult data sheet before prescribing.

USA: All grades of essential hypertension and renovascular hypertension. Congestive heart failure (adjuvant therapy).

PRESENTATION: Tablets containing 2.5mg, 5mg, 10mg or 20mg lisinopril ('Zestril').

**DOSAGE AND ADMINISTRATION: Hypertension** — Adults (including elderly): initially 2.5mg daily, or 5mg daily in the elderly, increasing to 10mg once-daily. Maximum is 40mg daily. Diuretic-treated patients — if possible stop diuretic 2-5 days before starting 'Zestril'. Resume diuretic later if desired. **Congestive heart failure**: Adults (including elderly): initially 2.5mg daily in hospital under close medical supervision, increasing to 5-20mg once-daily according to response. Monitor blood pressure and renal function. **Renal Impairment**: May require lower maintenance dosage.

**CONTRAINDICATIONS**: Pregnancy. Hypersensitivity to 'Zestril'. Patients with history of angioedema to previous ACE inhibitor therapy. Patients with acute renal failure, acute pulmonary or outflow tract obstruction.

**PRECAUTIONS**: Assessment of renal function is recommended. Symptomatic hypotension may occur, particularly in volume depleted patients and congestive heart failure. Caution in patients with ischaemic heart or cerebrovascular disease, renal insufficiency, renovascular hypertension. Patients with a history of angioedema may be at increased risk of angioedema with an ACE inhibitor. Cough has been reported with ACE inhibitors. Renal impairment (usually reversible) may occur in some patients. Hypotension may occur during surgery or anaesthesia. Caution in nursing mothers. No paediatric experience. Afro-Caribbean patients may show reduced therapeutic response. Symptomatic hypotension can be minimised by discontinuing diuretic prior to 'Zestril'. Interaction with indomethacin and lithium. Potassium supplements, potassium sparing diuretics and potassium containing salt substitutes not recommended. Avoid concomitant use with high-flux dialysis membranes. **SIDE EFFECTS**: Hypotension, dizziness, headache, diarrhoea, cough, nausea, fatigue. Less frequently, rash, asthma. Rarely, angioedema, oedema and other hypersensitivity reactions, myocardial infarction or cerebrovascular accidents, possibly secondary to excessive hypotension in high risk patients. Palpitation, tachycardia, abdominal pain, dry mouth, hepatitis, jaundice, mood alterations, mental confusion, uricaria, diaphoresis, urtisena, oliguria/anuria, renal dysfunction, acute renal failure, impotence, pancreatitis. A symptom complex which may include fever, vasculitis, myalgia, arthritis/arthralgia, positive ANA, elevated ESR, eosinophilia, leukocytosis, rash, photosensitivity or other dermatological manifestations may occur. Increases (usually reversible) in blood urea, serum creatinine, liver enzymes and serum bilirubin. Decreases in haemoglobin and haematocrit have occurred. Hyperkalaemia.

LEGAL CATEGORY: POM. PRODUCT LICENCE NUMBERS AND BASIC NHS COSTS: 'Zestril' 2.5mg (28/02080) 28 tablets, $7.94; 5mg (29/02094) 28 tablets, $9.85; 10mg (29/02095) 28 tablets, $12.13; 20mg (29/02096) 28 tablets, $13.72. 'Zestril' is a trademark. Further information is available from ZENECA Pharma, King's Court, Water Lane, Wilmslow, Cheshire SK9 5AZ. ZENECA Pharma is part of the ICI Group.

THE ROYAL COLLEGE OF GENERAL PRACTITIONERS
PRINCE OF WALES EDUCATIONAL FELLOWSHIPS

£12,000

The Royal College of General Practitioners has recently established a Commission on Primary Care to improve services for patients through better inter-professional working facilitated by learning together. The Commission represents the disciplines of general practice, nursing, health visiting, social work, practice management and osteopathy, as well as carers and patients.

The Commission invites applications for the following Prince of Wales Educational Fellowships:

Physical Disability Fellowship, sponsored by the Medical and Dental Defence Union of Scotland.

Care of People with Mental Health Problems, sponsored by the Medical Insurance Agency Charity.

Both Fellowships are funded for three sessions per week (£12,000pa), tenable for three years from 1 September 1993. The Fellowship are open to experienced professionals from all disciplines within primary care who have a proven track record in organising multi-disciplinary training and/or continuing education. The postholders will have excellent written and oral communication skills and should be able to command respect from education providers and professionals across all the disciplines encompassed within primary care. A medical or nursing qualification is not required.

For further details contact the Clerk to the RCGP Commission on Primary Care, RCGP, 14 Princes Gate, Hyde Park, London, SW7 1PU - 071 581 3232. Enquirers should specify in which Fellowship they are interested.

Closing date for applicants is 21 May 1993.
The following clinics are available for referral of patients by general practitioners. They are based on the training schools at present accredited by the General Council and Register of Osteopaths. Treatment is carried out by those in training for membership of the Register of Osteopaths (MRO) and is closely supervised by experienced osteopaths with that qualification. Training courses are four years in duration for non-medical osteopaths including between 1,100 and 1,600 hours of supervised patient treatment; medical practitioners at the London College of Osteopathic Medicine train for thirteen months involving 900 hours of patient treatment supervised by medically qualified osteopaths.

THE BRITISH COLLEGE OF NATUROPATHY AND OSTEOPATHY CLINIC
Founded 1935, Registered Charity No. 312907.
Frazer House, 6 Netherhall Gardens, London NW3 5RR. (Nearest Underground station - Finchley Road)
Appointments: 071 435 7830

THE BRITISH SCHOOL OF OSTEOPATHY CLINIC
Founded 1917. Registered Charity No. 312873.
1-4, Suffolk Street, London SW1Y 4HG. (Adjacent to the National Gallery)
Appointments: 071 930 9254

THE EUROPEAN SCHOOL OF OSTEOPATHY CLINIC
Registered Charity No. 266633.
104, Tonbridge Road, Maidstone, Kent ME16 8SL
Appointments: 0622 685989

THE OSTEOPATHY ASSOCIATION CLINIC
Founded 1927, Registered Charity No. 209713. (London College of Osteopathic Medicine)
8-10, Boston Place, NW1 6QH (Adjacent to Marylebone Station)
Appointments: 071 262 1128

At these clinics patients' payments are below those generally charged in the independent sector and may be further reduced for claimants or others with low income; enquiries concerning the level of charges and the availability of reductions should be made when booking appointments.

NEW FROM LIFESCAN

ONE TOUCH™ II

SYSTEM

It’s Perfectly Simple

- Easy Blood Glucose Testing
  - Turn on Meter
  - Insert Test Strip
  - Apply Sample

- Unsurpassed Accuracy
  - No Wiping
  - No Timing
  - Errors are virtually eliminated

ONE TOUCH™ II technology makes it possible.

"Smart Optics" recognise many common procedural errors and, in most cases, prevent wrong results. The meter’s 250-test memory captures results by time and date, and gives a 14-day average of Blood Glucose values. The meter may be computer-connected for analysis of results. Comes with compact carry case for meter and test supplies. Three Year Warranty.

Only the ONE TOUCH II System does so much.

FORTHCOMING COURSES 1993

THE "NEW" MANAGEMENT APPRECIATION COURSE

The changes General Practice is continuing to experience, has placed a greater demand on the quality of management in practice. This new 2 day course addresses those needs with the aim of helping GPs and Practice staff become better managers. The course deals with:

- strategic and operational management of the practice
- management of staff, time and the organisation
- management of change

Fee: £235 including VAT (£200 + £35 Vat) PGEA applied for. This course will be available from Mid 1993 early booking is advised.

EFFECTIVE PERSONNEL MANAGEMENT

Course Director: Sally Irvine
Course Tutor: Hilary Haman
3/4 June & 12/13 October 1993

This course is designed for members of the practice team whose responsibilities include staff management. The principles of personnel management, and their application in the management of staff whose conduct and performance are problematic, are covered. This two day residential course addresses the contract of employment, the motivation of staff and dealing with disciplinary issues.

The fee is £200.00 for members and £250.00 for non-members. PGEA approved.

PERFORMANCE APPRAISAL

Course Tutor: Hilary Haman
13/14 May & 23/24 November 1993

Two day course open to general practitioners and practice and health centre managers. It aims to provide an appreciation of performance appraisal, the opportunity to practice interviewing skills, including role play and the use of video, and to develop a plan to allow participants to introduce a performance appraisal scheme into their practice. This course is highly intensive and therefore limited to twelve participants only.

PGEA Approved. The fee is £270.00 including lunch and refreshments and dinner on the first evening.

For further details please contact RCGP Courses and Conferences on 071 823 9703 or Fax 071 225 3047

INTERVENTION SKILLS

ALCOHOL - reducing the risk

Friday 7 May 1993

This one day conference jointly organized by the Health Education Authority and the RCGP will help general practitioners and practice team members to improve both general intervention skills and knowledge of how to deal effectively with patients with alcohol-related problems. Plenary sessions and skills based workshops will cover: the role of the general practitioner, effectiveness of intervention, recognition of alcohol problems, working with others negotiating behaviour change, managing withdrawal and family implications.

Attend this event and put ideas into practice. Fee for the day including papers and lunch is £30 per person or £10 for two members of the primary health care team from the same practice. PGEA approved.

For further details contact Courses and Conferences Development Unit, RCGP, 14 Princes Gate, Hyde Park, London SW7 1PU.

Tel: 071-823-9703, Fax 071-225-3047

ADVANCE NOTICE

PHYSIOTHERAPY IN PRACTICE

This one day conference organised by the Royal College of General Practitioners in conjunction with the Chartered Society of Physiotherapy will take place on Thursday 11 November 1993 at the Royal Geographical Society London.

The conference will examine ways in which the two organisations can co-operate in patient care. In addition to the formal presentations there will be a series of practical demonstrations. Poster presentations on aspects of physical medicine with particular reference to co-operative activities will be available. Joint presentations from GPs and Physiotherapists will be particularly welcome and a prize will be offered for the best presentation.

Potential poster presenters are invited to submit abstracts outlining their subject on forms available from RCGP courses.

Closing Date for submissions is 1st OCTOBER 1993.

Abstract forms and further details of the Conference are available from Courses and Conferences, RCGP, 14 Princes Gate, London SW7 1PU. Tel: 071 823 9703 Fax: 071 225 3047

New FELDENE MELT* breaks the mould of traditional tablets and capsules. When placed on the tongue FELDENE MELT dissolves in seconds to provide 24 hour control of symptoms. In this way patients can benefit from night and day relief of pain, reduced inflammation and improved mobility.

Because it's such a pleasant way of taking medicine, you may find many of your patients prefer FELDENE MELT to conventional capsules or tablets. Try them and see.

Prescribing Information for FELDENE MELT* (piroxicam): UK
Indications: Adults: Rheumatoid arthritis, osteoarthritis, ankylosing spondylitis, acute gout and acute musculoskeletal disorders. Elderly: As with other NSAIDs elderly patients should be closely supervised. Children: FELDENE MELT is not recommended in children. For treatment of juvenile chronic arthritis (JCA) disease please see oral dose sheet. Dosage: Rheumatoid arthritis, osteoarthritis and ankylosing spondylitis - normal starting and maintenance dosage 20mg once daily. Long-term use of 30mg daily or more carries an increased risk of gastrointestinal side-effects. Acute gout - 40mg daily in single or divided doses for up to 7 days. Acute musculoskeletal disorders - 40mg daily in single or divided doses, for the first 2 days, 20mg daily for the remainder of the 7 to 14 days treatment. Co-Indications: Active peptic ulceration or history of recurrent ulceration. Hypersensitivity to FELDENE, aspirin or other NSAIDs. Warnings: Pregnancy, lactation.

Precautions: Significant renal, hepatic or cardiac insufficiency. Patients with phenylketonuria - each FELDENE MELT tablet contains 0.15mg phenylalanine.
Drug Interactions: Monitor patients on concurrent anticoagulants, thiazide or diuretic therapy. Concurrent use of aspirin or other NSAIDs is not advised. Side-Effects: Gastro-intestinal symptoms, if peptic ulceration or gastro-intestinal bleeding occurs withdraw FELDENE. Occlusion, mainly ankle. Skin rashes, CNS effects, including headache and dizziness. Rare cases of renal and hepatic abnormalities have been reported. Haematological reactions including thrombocytopenia and anaemia and hypersensitivity reactions such as bronchospasm and angioedema have been reported very rarely. Legal Category: POM. Packaging Quantities and Basic NHS Cost: FELDENE MELT tablets 20mg, pack of 20, P1/19 (Pl 0057/0553), full information on request.
