THE OUTCAST

'The fairest things in life
are Death and Birth

And of these two
the fairer thing is death.'

Ode to the Setting Sun Francis Thompson

Was Francis Thompson a depressive?

One strongly suspects so. Certainly he was a mystic and predisposed to bouts of severe melancholy. He saw himself as an outcast, alone—he felt that life was not worth living; he was preoccupied with death. Many of your patients may show just such a morbid thought-pattern. For these modern-day sufferers effective therapy is possible: the treatment is NARDIL.

IN MILD TO MODERATE DEPRESSION

NARDIL is safe and is effective at low dosage levels. Toxic effects on blood or liver are extremely rare. NARDIL acts quickly. Response is usually seen within the first weeks or even days of treatment. NARDIL provides reliable treatment for depressives—often the problem patients of a busy practice.

NARDIL

Whenever inflammation complicates haemorrhoids ANUSOL-HC (containing hydrocortisone) is the specific treatment.

ANUSOL-HC speedily controls inflammation, as well as treating the haemorrhoids, at a cost that is relatively low for a corticosteroid. It does not contain a local anaesthetic that may mask a more serious condition; it is easily inserted; and there are no side effects. After the inflammation and pruritus have been controlled, ANUSOL PLAIN is recommended for effective continuation therapy.

SAFE, SOUND SLEEP

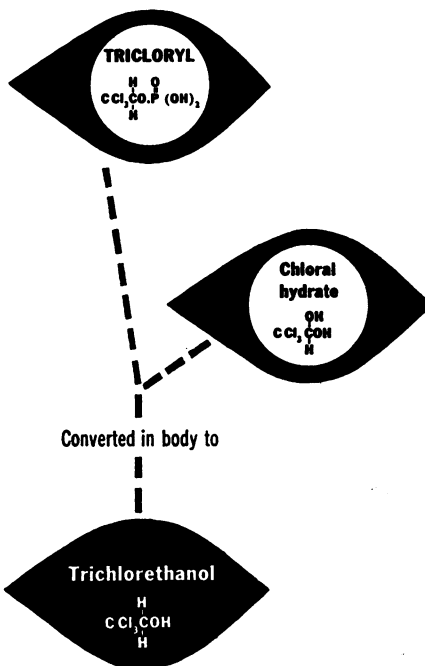

TRICLORYL

tablets

the palatable
improvement on
chloral hydrate

Tricloryl provides all the desirable sleep promoting effects of chloral hydrate. Like chloral hydrate Tricloryl acts by being converted in the body into trichlorethanol. It differs from chloral hydrate however in being much more palatable, unlikely to cause gastric irritation and in being able to be presented as tablets.

With the same wide margin of safety as chloral hydrate Tricloryl is suitable for patients of all ages. It produces the same quiet, sound 'physiological' sleep from which the patient can be easily and completely aroused if necessary. On awakening the patient is refreshed and free from any 'hang-over' effect. Habituation is rare.

With the introduction of Tricloryl there is at last a really satisfactory way of providing the 'chloral hydrate' effect which is so desirable in many cases of sleeplessness.

TRICLORYL

Bottles of 20, 100 and 500 tablets each containing 0.5 gram monosodium triclofos.

DOSAGE:

for sleep, usually 2 tablets
for sedation, $\frac{1}{2}$ to 1 tablet as needed.

the name Tricloryl is a Glaxo trade mark

GLAXO LABORATORIES LIMITED

ROTER

has particular
advantages

ROTER achieves a high cure rate and often gives effective control of even refractory chronic cases which have resisted other treatments.

ROTER in many cases obviates the need for hospitalization or surgical intervention.

ROTER helps patients to keep ambulant and symptom-free with a minimum of medication and with few, if any, dietary restrictions.

ROTER in general practice enables the physician to take adequate care of his gastric cases without frequent or prolonged supervision.

ROTER has no known side effects.

ROTER requires no supplementary medication such as sedatives or anti-spasmodics.

ROTER shows a saving in cost when compared with conventional methods of treatment.

New Books

Bigger's Handbook of Bacteriology

By F. S. Stewart, M.D., F.R.C.P.I.

Specifically designed to meet the requirements of postgraduate students and general practitioners who have need to refer to a clinical bacteriological textbook. It gives particular emphasis to general principles and to those aspects of bacteriology which are of importance to the study of clinical and preventative medicine.

8th Ed. 648 pages. 75 illus. 45s. postage 2s. 6d.

Practical Electrocardiography

By Henry J. L. Marriott, M.D.

This book emphasises the simplicities rather than the complexities of the electrocardiogram. It gives only those electrophysiologic concepts that make everyday interpretations more intelligible without overburdening the reader with unnecessary detail. It covers all diagnostically important electrocardiographic patterns and they are well illustrated.

3rd Ed. 250 pages. 200 illus. 44s. postage 2s. 6d.

Muscles Alive

(Their Function Revealed by Electromyography)

By J. V. Basmajian, M.D.

Electromyography is a method of recording muscular movement by the use of electrical impulses. This technique reveals the function of muscles and shows what a muscle actually does at any moment during various movements and postures. It also shows the co-ordination between different muscles.

278 pages. 126 illus. 68s. postage 3s.

Gynaecologic Cancer

By James A. Corscaden, F.H.S., M.D.

The third edition of this book discusses proven methods of diagnosis and treatment of gynaecologic cancer and explains in detail advances of the past 10 years.

3rd Ed. 585 pages. 117 illus. 96s. postage 3s.

Aids to the Diagnosis and Treatment of Diseases of Children

By E. M. B. Allen, M.D., F.R.C.P., and I. J. Carre, M.A., M.D., M.R.C.P., D.C.H.

A new 11th edition of one of the oldest titles in the very popular *Students Aids' Series*, providing a small concise volume on the diseases of children and their treatment. Of great use to the student and qualified practitioner.

11th Ed. 366 pages. 15s. postage 1s.

Baillière, Tindall and Cox

7 & 8 Henrietta Street, London, WC2

Even in psoriasis...

'DRENISON'*

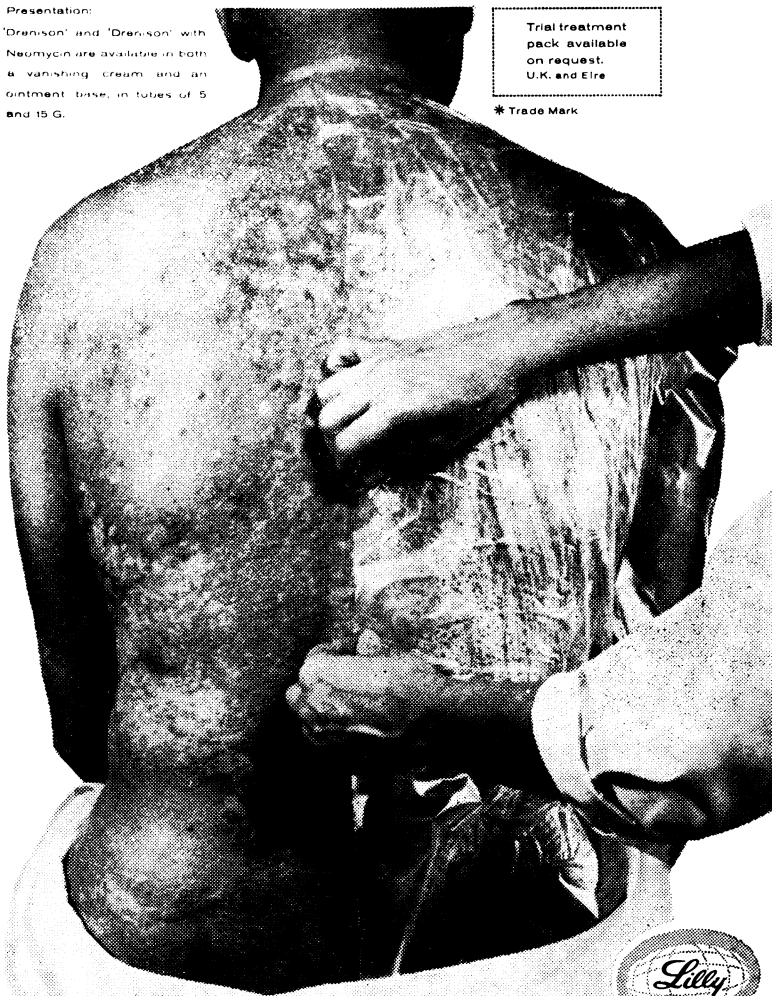

brand Flurandrenolone in conjunction with occlusive dressings has proved highly successful in the treatment of resistant dermatoses—even in psoriasis. 'Drenison' cream or ointment is applied to the area which is then covered with thin flexible plastic sheeting. This technique facilitates penetration into the skin and hastens recovery. 'Drenison' with Neomycin is also available, for use where infection is present.

Presentation:

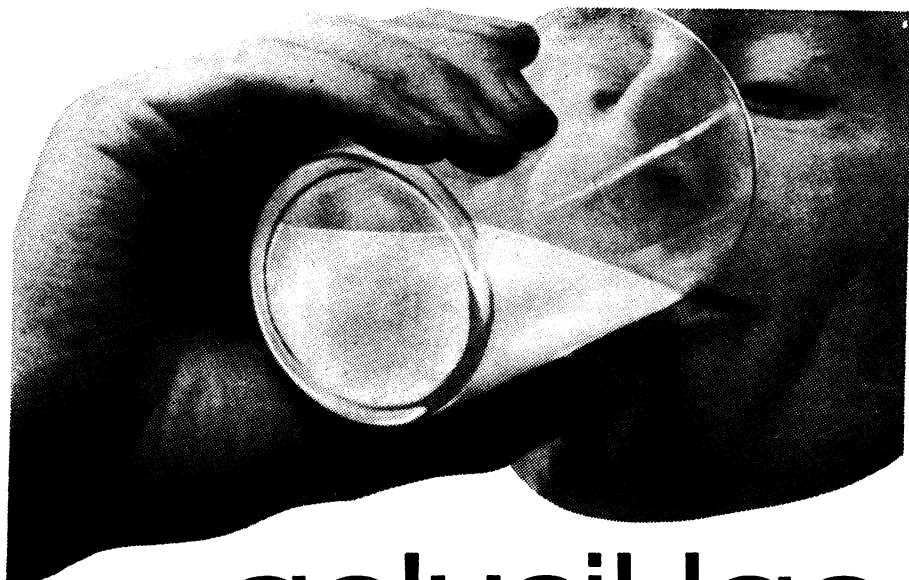

'Drenison' and 'Drenison' with Neomycin are available in both a vanishing cream and an ointment base, in tubes of 5 and 15 G.

This is **gelusil lac**

COMBINED-ACTION THERAPY FOR PEPTIC ULCERATION

GELUSIL LAC combines antacids with low-fat, high-protein milk solids. The antacids* are those recommended in the current British National Formulary. GELUSIL LAC is a natural up-to-date development from 'Gelusil'. It makes the treatment of peptic ulceration simpler for the patient. GELUSIL LAC is easily and quickly prepared by pouring the contents of a sachet or one dessertspoonful (8 G.) into quarter of a tumbler of water and stirring.

Indications: Peptic ulceration; hyperacidity; hiatus hernia; oesophagitis; heartburn of pregnancy.

Presentation: One-dose sachets, supplied in cartons of 10 sachets of 8 G. each. Also available in dispensing tins of 200 G.

Dosage: 1 sachet or one dessertspoonful (8 G.) to be mixed with quarter of a tumbler of water and taken as required.

***Formula:** Each 8G. sachet contains: magnesium trisilicate 1.0 G., aluminium hydroxide 0.5 G., low-fat milk solids 6.5 G.

And for those who favour tablet treatment

GELUSIL TABLETS

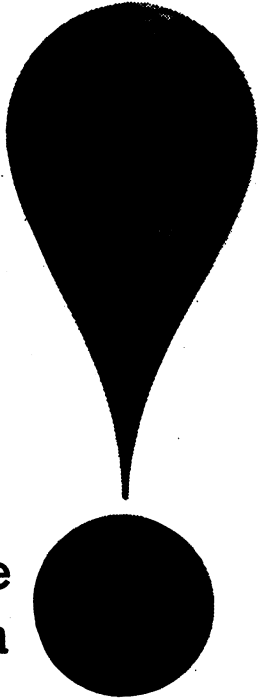

adsorb more excess stomach acid than any other tablet

Gelusil Antacid Tablets: GELUSIL is not only very effective, it is economical as well. Basic NHS cost for 50 tablets is as little as 1/6d. The GELUSIL formula, aluminium hydroxide 0.25 G. and magnesium trisilicate 0.5 G. is neither laxative nor constipating.

GGIAC 8

**ergotamine alone
is not enough**

To combat an incipient attack of migraine, oral ergotamine alone is inadequate. It needs the potentiating effect of caffeine. **Above all, it needs a rapidly acting anti-emetic to counter its main defect as well as the vomiting resulting from migraine itself.**

'Migril' contains every one of the necessary ingredients — ergotamine tartrate, caffeine, and the proven anti-emetic cyclizine hydrochloride.

'Migril', the ever-present companion of thousands of migraine sufferers, is their reliable insurance against an attack.

'MIGRIL'

ERGOTAMINE COMPOUND

masters migraine

BURROUGHS WELLCOME & CO. LONDON
(The Wellcome Foundation Ltd.)

Rinurel relieves sinus headache and the symptoms of the common cold, thus enabling the patient to continue normal activity with a minimum of discomfort to himself and others. Rinurel provides analgesic, antipyretic, antihistaminic and decongestant effects and can be expected to control symptoms whether they arise from infection, allergy, or both.

Rinurel gives prompt, lasting relief from pain and discomfort without rebound congestion, gastric disturbance or constipation.

Dosage: Two tablets initially followed by one every four hours.

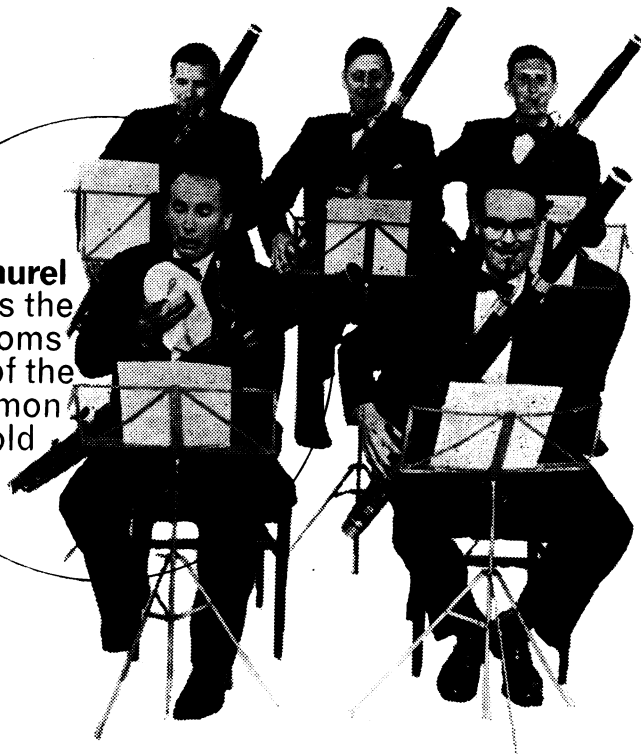

Prophylactically one tablet every four hours.

ALDOMET^{Regd}

METHYLDOPA

**a new and completely different
antihypertensive agent with significant advantages**

ALDOMET is indicated in all degrees of hypertension and has **significant advantages** both for the physician and the patient.

ALDOMET reduces both standing *and lying* blood pressure. Diurnal blood pressure variations rarely occur. By adjustment of dosage, morning hypotension can be prevented without sacrificing control of afternoon blood pressure.

Exertional hypotension rarely occurs.

When an effective dosage is attained, **ALDOMET** produces a smooth, **maximal** effect in most patients in 12 to 24 hours.

Dosage is simple, flexible and easily established.

The duration of action is short and hypertensive rebound does not occur on stopping treatment.

There is a general lack of severe side effects.

ALDOMET is a first choice for the treatment of all cases of **essential hypertension**.

ALDOMET is an original discovery of the Merck Sharp & Dohme Research Laboratories and is made in England by

MERCK SHARP & DOHME LIMITED, HODDESDON, HERTS

ALDOMET is available as yellow, film-coated tablets containing 250 mg. methyl dopa. Detailed information on dosage, administration, indications, precautions and bibliography is available on request.

CICATRIN

**accelerates healing
rates by 25-50%***

Prolonged and expensive treatment of chronic ulcers may be avoided by the use of Cicatrin, the leading amino-acid/antibiotic preparation for topical application.

Further evidence of the efficacy of Cicatrin is provided by a recent controlled clinical trial to evaluate the influence of various topical applications on the healing rates of stasis ulcers. This trial shows that Cicatrin with its combination of selected amino-acids and antibiotics accelerates the healing rates by 25-50%.

It is also significant that in one group where the main difference between the two preparations was that one contained amino-acids and antibiotics (Cicatrin) and the other antibiotics only, the healing time in the Cicatrin treated group was shortened considerably both in bed rest and ambulatory cases.

DAY-LONG CONTROL WITH A SINGLE DOSE

THE ROYAL LONDON HOMOEOPATHIC HOSPITAL

Great Ormond Street and Queen Square, London, W.C.1.

Course of instruction in the Principles and Practice of Homoeopathy for Medical Practitioners and Senior Students of Medicine

These lectures, which commence on the 5th October, 1962, are given under the auspices of the Homoeopathic Research and Educational Trust, and deal with the subjects required for examination for the Diploma of the Faculty of Homoeopathy.

Fee for registered medical practitioners, £10 10s. per session. Medical students admitted without charge.

Scholarships and Grants to enable Doctors to attend this Course are offered by The Homoeopathic Research and Educational Trust.

Full particulars can be obtained on application to the Dean of the Education Course at the Hospital.

CARD INDEX PUBLICATIONS

The College's card index publications are on sale to non-members of the College and many hospitals are now using the Obstetric Record Card. Members and associates may like to be reminded of the prices of these cards and may wish to draw the attention of non-members and their local hospital, to them, as it is thought that there may be many who would find them useful.

The cards can be obtained from:

The Secretary, the College of General Practitioners, 41 Cadogan Gardens, London, S.W.3, at the following prices (including postage):

Obstetric record card	12s. 6d. a hundred
Summary card	12s. 6d. a hundred
Menstruation chart	16s. 0d. a hundred

Copies of some back numbers of the *Journal* are available at cost price, also copies of "Report of A Symposium on Accident Management" at 6s. "Report of a Symposium on The First Year of Life" at 3s., the pamphlet "The Health Visitor and The Family Doctor" at 1s. post free and "Training for General Practice" at 1s. 6d., post free from:

The Journal Office, Prospect House, Dartmouth.

THE COLLEGE OF GENERAL PRACTITIONERS

41 Cadogan Gardens, London, S.W.3

Associateship

Any registered (or provisionally registered) medical practitioner is eligible for admission as an associate, provided he gives an undertaking that if he enters or remains in general practice he will continue approved postgraduate study and will uphold and promote the aims of the College to the best of his ability.

(A provisionally registered medical practitioner shall cease to be an associate if he fails to obtain registration within two years of qualification.)

Membership

The Council of the College admits to membership, after consultation with the Board of Censors, registered medical practitioners who have been qualified for not less than seven years and have been engaged in general practice for not less than five years or, as an associate, for three years.

An applicant for membership must :— (1) Be proposed and seconded by two members of the College—not being in partnership with each other. (2) Submit evidence concerning his practice, experience, and academic and administrative achievements. (3) Submit himself to an interview with the board of censors, if required. (4) Give an undertaking that he will continue approved postgraduate study while he remains in active general practice, and that he will uphold and promote the aims of the College to the best of his ability. The Council may seek supporting evidence of his eligibility from his sponsors, the board of the faculty in whose area he resides, and, if so required, from others whom he or his sponsors may choose to appoint.

Entrance Fees and Subscriptions

Associates make an annual subscription of £2 2s. 0d. but pay no entrance fee. Members are required to pay an entrance fee on admission of £10 10s. 0d. and make an annual subscription of £5 5s. 0d.

Forms of application for admission to associateship and membership may be obtained from The Secretary, The College of General Practitioners, 41 Cadogan Gardens, London, S.W.3. Tel. No. Sloane 8333.
