

## Vote of Thanks

**Dame Annis Gillie:** It is a special pleasure to express thanks to the faculty planners and organisers of this meeting for having arranged such a fascinating series of speakers, and above all, to the speakers themselves who have given us such interest.

We have also to thank Messrs. Geigy (U.K.) Limited, Pharmaceutical Division, who are an important power behind the organisation of this occasion, and whose team for organising symposia of this sort have gained in their understanding of ourselves; this I have seen in all parts of the country over the years.
