

## E. & S. LIVINGSTONE LTD.

### EARLY DIAGNOSIS

Edited by HENRY MILLER, M.D., F.R.C.P. With twenty-five distinguished contributors. 408 pages 25s.

"The early recognition of important disease is the special responsibility of the general practitioner, for whom this book has been written. It is he who must appreciate the signs which will lead him to commission on behalf of his patients the elaborate, expensive and sometimes even potentially dangerous machinery of modern medical investigation. Not only a source of intellectual satisfaction and the basis of reliable prognosis, early diagnosis has been endowed by the headlong advance of therapeutics with a practical importance undreamed-of even a few years ago."—Extract from Preface.

### SHAKESPEARE AND MEDICINE

By R. R. SIMPSON, M.B., ChB., F.R.C.S., F.R.C.S.Ed. 275 pages 8 illustrations 25s.

This volume on the references to medicine in Shakespeare's plays is the result of years of tireless research. It is a scholarly work and, although written primarily for medical men, its importance and appeal stretch to all whose work and interest bring them into contact with the life, the work, the art of Shakespeare. It will be a standard reference book for many years to come.

# 'SECROSTERON'

DIMETHISTERONE TABLETS

TRADE MARK

## — the new name in steroids

**WITH SIMPLER DOSAGE SCHEMES, INCREASED POTENCY AND  
PURELY PROGESTATIONAL ACTION**

'Secrosteron' marks a significant advance in its specific field. It is a highly potent, orally active progestational agent. It brings about true secretory changes in the endometrium; and it has no oestrogenic or androgenic action. Above all it has increased potency over ethisterone and is active in wide range of conditions, at many times smaller dosage levels.

**DOSAGE:** 'Secrosteron' dosage schemes are simple—5 mg. three times daily in cases of Premenstrual Tension, Threatened Abortion, Menorrhagia, Metrorrhagia, Toxæmia of Pregnancy and Amenorrhœa. 5 mg. daily for Habitual Abortion.

# Dosulfín®

suspension

in paediatrics

## Geigy

Both for sick children and those who nurse them Dosulfín suspension offers many advantages.

Dosulfín suspension, a combination of equal parts of sulphaproxyline and sulphamerazine, is a highly effective antibacterial drug. This pleasantly flavoured syrup is readily accepted by children of all ages.

A small dose of Dosulfín suspension has a rapid action and provides a high concentration in the necessary organs. This concentration is extended over a relatively long period and Dosulfín need only be administered two or three times a day.

Dosulfín is also available in the form of a completely tasteless tablet which, if desired, can easily be crushed into a powder and mixed with the patient's food.

Dosulfín suspension is indicated in :—  
Infections of the ear

Lobar and broncho-pneumonia

General respiratory tract infections

As a prophylactic against complications in measles and influenza.

# The esters of NICOTINIC, SALICYLIC and p-AMINO BENZOIC acids bring relief to cases of arthritis and rheumatism

*"Thank you, doctor"*

**I**N CASES OF soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.\*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

\* *Therapeutische Umschau*  
1962, 8, 143.

<i>Tetrahydrofurfuryl salicylate</i> .....	14%
<i>Ethyl nicotinate</i> .....	2%
<i>n-Hexyl nicotinate</i> .....	2%
<i>Ethyl p-aminobenzoate</i> .....	2%
<i>Water-miscible cream base ad.</i> .....	100%

Transvasin is available in 1 oz. tubes, basic N.H.S. price 2/6 plus P.T., and is not advertised to the public. Samples and literature will be gladly sent on application.

# A Superior Buffered Analgesic

'ALASIL' Tablets—the improved form of salicylate medication — provide the efficient analgesia expected from their content of aspirin. Their superior acceptability derives from their content of a reliable buffer which minimizes the tendency to gastric irritation sometimes caused by the use of aspirin alone.

## Advantages

'Alasil' is an advanced sedative and antipyretic; it does not tend to induce gastric irritation; because of its high tolerability, it may be used for long-term administration even to those with sensitive stomachs, and to children.

## Composition

'Alasil' Tablets contain the recognized antacid corrective, 'Alocol' (Colloidal Aluminium Hydroxide), which permits their sedative principle, acetylsalicylic acid, to exert its action with minimal risk of side-effects.

## Indications

Symptomatic pain generally; rheumatism, fibrositis, lumbago, headache, dysmenorrhoea; dental pain.

## **A SYSTEM OF ORTHOPAEDICS AND FRACTURES**

Edited by A. GRAHAM APLEY, M.B., B.S., F.R.C.S. Pp. viii + 357 + Index.  
Standard Edition 47s. 6d. net. Alternative Edition, interleaved with blank  
pages. 67s. 6d. net, by post 1s. 9d. extra.

This work states clearly and concisely the essentials of orthopaedic diagnosis and treatment. It will be valuable to those whose work demands a quick means of reference to orthopaedics—such as house surgeons and casualty officers—and all who are studying the subject.

For those who want to add their own notes, there is an alternative edition interleaved with blank pages.

## **MEDICAL LABORATORY INVESTIGATIONS: Their Use and Interpretation**

By IAN DAWSON, M.A., M.D., M.R.C.P., and WILLIAM GOLDIE, M.A., M.B., F.R.C.P., F.R.C.P.(E.). Pp. xiii + 233 + Index. 35s. net, by post 2s. extra.

Here is a book for everyone who has to request or to interpret a laboratory investigation. It deals logically with the type and quantity of specimen needed, how it should be obtained, the degree of accuracy to be expected from the test, and the significance of the results.

## **MODERN TRENDS IN DISEASES OF THE VERTEBRAL COLUMN**

Edited by REGINALD NASSIM, B.M., F.R.C.P., and H. JACKSON BURROWS, M.D., F.R.C.S., F.R.A.C.S. Pp. ix + 292 + Index. 172 illustrations. 75s. net, by post 1s. 6d. extra.

In this new book, experts in particular fields combine their knowledge to cover in one work a subject which usually remains divided between the specialities. Facts and treatment are examined in the light of new advances and the effects on the body as a whole of diseases of the vertebral column are discussed.

## **CANCER OF THE PHARYNX, LARYNX AND OESOPHAGUS and Its Surgical Treatment**

By RONALD W. RAVEN, O.B.E.(MIL.), T.D., F.R.C.S. Pp. xiv + 292 + Index. 189 illustrations. 67s. 6d. net, by post 1s. 9d. extra.

The author of this new book writes from a wealth of personal experience. He deals exhaustively not only with pathology and anatomy, but with pre-cancerous conditions and the clinical picture, describing those operations which he has found valuable. The results of radiotherapy are fully reviewed, together with special anaesthetic considerations.

# **"IMPROVED THERAPY FOR PEPTIC ULCER"**

---

**Extract from the American Journal of Gastroenterology (1957), 28, 439.**

"The medication investigated is known as Roter tablets . . . The dosage employed in the treatment of gastric or duodenal ulcer was 2 tablets, taken three times a day with tepid water immediately after meals . . . this therapy is applicable to ambulatory patients."

## **SUMMARY**

"In a series of 155 cases of peptic ulcer treated with . . . (Roter) tablets for three to six weeks, there was immediate relief of pain in 92 per cent of cases and roentgenological healing of the ulcer in 81 per cent. The average weight gain was 7.9 lbs. and occult blood disappeared from the stools in all of the six cases in which it was found.

"The benefit provided by the medication is attributed to the minute particulation of the bismuth subnitrate, produced by a special process of trituration in association with a synergistic antacid combination.

"The special features of this medication are immediate and prolonged relief of pain, correction of gastric hyperacidity, absence of side reactions, effectiveness for ambulatory patients, and early healing of the ulcer in most cases.

"There was no acid rebound in therapeutic dosage and no adverse effects were reported."

## **THE COLLEGE OF GENERAL PRACTITIONERS**

**41 Cadogan Gardens, London, S.W.3**

### **Associateship**

Any registered (or provisionally registered) medical practitioner is eligible for admission as an associate, provided he gives an undertaking that if he enters or remains in general practice he will continue approved postgraduate study and will uphold and promote the aims of the College to the best of his ability.

(A provisionally registered medical practitioner shall cease to be an associate if he fails to obtain registration within two years of qualification.)

### **Membership**

The Council of the College admits to membership, after consultation with the Board of Censors, registered medical practitioners who have been qualified for not less than seven years and have been engaged in general practice for not less than five years or, as an associate, for three years.

An applicant for membership must :— (1) be proposed and seconded by two members of the College—not being in partnership with each other. (2) Submit evidence concerning his practice, experience, and academic and administrative achievements. (3) Submit himself to an interview with the board of censors, if required. (4) Give an undertaking that he will continue approved postgraduate study while he remains in active general practice, and that he will uphold and promote the aims of the College to the best of his ability. The Council may seek supporting evidence of his eligibility from his sponsors, the board of the faculty in whose area he resides, and, if so required, from others whom he or his sponsors may choose to appoint.

### **Entrance Fees and Subscriptions**

Associates make an annual subscription of £2 2s. 0d. but pay no entrance fee. Members are required to pay an entrance fee on admission of £10 10s. 0d. and make an annual subscription of £3 3s. 0d. (After June 1959—£5 5s. 0d.).

Forms of application for admission to associateship and membership may be obtained from The Secretary, The College of General Practitioners, 41 Cadogan Gardens, London, S.W.3. 'Phone Sloane 8333.
