# ORISULF<sup>Reg.T.M.</sup>

## A new concept in long-term prophylaxis of **CHRONIC BRONCHITIS**

Orisulf is ideal for preventing the upper respiratory tract infections which precede relapses in patients with chronic bronchitis. It has a prompt, potent action and is exceptionally well tolerated.

Clinical trials in this country\* have shown that Orisulf is safe. It has been given to children daily for over 2½ years without causing side effects.

### PROPHYLACTIC DOSE :

One or two tablets daily.

Costs as little as 2d. a day at basic N.H.S. prices.

## ORISULF IN ACUTE INFECTIONS

### including

bronchitis	urinary tract infections
tonsillitis	otitis media
pneumonia	intestinal infections
sinusitis	febrile illnesses

### Extremely well tolerated

"One of the authors himself took 25g. ... daily for five days and experienced no ill effects—a bold demonstration of lack of toxicity."

*Brit. med. J.* 1959, 2, 483.

### Convenient 12-hourly dosage

1 G. twice daily for 2 days then 0.5 G. twice daily for 3 days.

Available as 0.5 G. tablets in 25's, 100's and 500's, and 10% suspension in 50 c.cm. bottles.

*ORISULF* is 1-phenyl-5-sulphanilamidopyrazole.

Basic N.H.S. Cost of a 5-day course of treatment is approximately 2s. 4d.

\* Unpublished report on work at the Walker Gate Hospital, Newcastle.

**10 unknown diabetics in every GP's care...**

The diabetic population of Great Britain numbers almost 500,000—yet only about half of them are known and under treatment. Statistically this means that every general practitioner has more than ten undetected diabetics in his care. These unknown diabetics are at risk. Many already show retinal changes and other vascular abnormalities at the time of diagnosis. These changes are often irreversible: their prognosis could only be improved by early diagnosis and treatment of diabetes. CLINISTIX\* is the best aid to the diagnosis of diabetes. This simple dip-and-read test is specific for glucose: it takes only a few seconds, and has the correct sensitivity for significant results. Every patient whose urine is positive to CLINISTIX should be regarded as a potential diabetic.

**to detect diabetes  
simply dip-and-read  
Clinistix**

CLINISTIX Reagent Strips are available in bottles of 60 strips.  
U.K. Retail Price 6/-, less professional discount. From all chemists.

**RIKER**

**SIMPLE and CONVENIENT**—a child can use it with push-button ease  
**SMALL and COMPACT**—concealment in the hand allows its unobtrusive use in public

During the past year, the 'Medihaler' has established itself as the inhaler in which convenience and simplicity in use have commended it to both patient and doctor.

Aware of the drawbacks of conventional atomisers, Riker has pioneered the development of aerosol suspensions enabling dry sprays to be delivered of a particle size predetermined for deep penetration, retention and absorption in the fine air passages.

The Riker metering valve permits repeated dosage at each operation.

'Medihaler', 'Medihaler Iso' and 'Medihaler Epi' are registered trade marks of:

For treating the Asthma patient the following 'Medihaler' Products are available:

**FOR SYMPTOMATIC RELIEF**

'Medihaler Epi' --- containing  
 Adrenaline Bitartrate B.P. (7 mg. per ml)  
 'Medihaler Iso' --- containing  
 Isoprenaline Sulphate B.P. (2 mg. per ml)

**Dosage.** ONE OR TWO inhalations are usually sufficient for relief of attacks. After first inhalation four or five minutes should elapse before deciding on second dose.

**FOR PROPHYLACTIC TREATMENT**

'Medihaler' Cort --- containing  
 Hydrocortisone Acetate B.P. (30 mg. per ml)  
 makes available routine steroid therapy for chronic intractable asthma symptoms.

**Dosage:** Patient receives 1.2 mg. hydrocortisone acetate from each inhalation. Daily requirements vary from 10-15 mg. which should be taken in divided doses.

**PACKS AND PRICES (Basic N.H.S.)**

## Nasal Congestion ?

In Neophryn with antihistamine, the powerful vasoconstrictor Neophryn is combined with thenyldiamine hydrochloride, an antihistamine which also has a mild anaesthetic action and enhances the decongestive properties of Neophryn. For the relief of nasal congestion in the common cold, sinusitis and allergic or vasomotor rhinitis, Neophryn with antihistamine, relieves discomfort, encourages normal breathing and combats infection by draining congested passages.

**READY-PREPARED**  
 suspension of  
 potassium penicillin V

Oral penicillin therapy makes another notable advance with the introduction of 'Distaquaine' V-K Suspension. This is the first and only *ready-prepared* suspension of potassium penicillin V—the highly efficient oral penicillin already widely prescribed in 'Distaquaine' V-K Tablets. Now, with the introduction of 'DQV-K' Suspension, the benefits of potassium penicillin V are made conveniently available to all your patients, from the youngest to the oldest. Smooth in consistency and particularly pleasant to take, 'DQV-K' Suspension is fully effective in *teaspoon* doses.
