

CHURCHILL LIVINGSTONE

**An Introduction to
Clinical Rheumatology**

WILLIAM CARSON DICK

1972 200 pages 41 illustrations £1.25

Extract from the preface

This introductory textbook on the rheumatic diseases is based upon lectures given to undergraduate medical students at Glasgow University and to post-graduate practitioners at the Royal College of Physicians and Surgeons, Glasgow.

Contents

Foreword
Preface
Introduction
The normal joint
Osteoarthritis and disc degeneration
Rheumatoid arthritis
Articular pathology and radiology
Still's disease
Systemic lupus erythematosus (S.L.E.)
Sjogren's syndrome
The arteritides
Rheumatic fever
Ankylosing spondylitis
Gout
Infectious arthritis
Arthritis associated with general medical diseases
Miscellaneous locomotor system derangements
Drugs used in the treatment of the chronic arthritides
Appendix 1: The eye in arthritis
Appendix 2: Diagnostic criteria for rheumatoid arthritis
Index

Largactil

a name
that covers
a multitude
of ills

In major and minor psychoses, drug withdrawal, senile dementia, control of terminal pain, and nausea and vomiting, the name to write is 'Largactil'. The established one. And the versatile one – because of its wide variety of presentations 'Largactil' allows treatment to be tailored to the individual needs of each patient at a very reasonable cost.

'Largactil' is available as tablets, syrup, forte suspension, injection solution and suppositories.

Full information is available on request

'Largactil' is a trade mark of May & Baker Ltd Dagenham Essex RM10 7XS for its preparations of chlorpromazine.

Madam prefers Esbatal

"Seventy-five per cent of patients spontaneously complained of various degrees of tiredness on methyl dopa, as against 10 per cent on bethanidine (ESBATAL) and 17 per cent on guanethidine."⁽¹⁾

"Side-effects are fewer and milder...."⁽²⁾

"The lower incidence of side-effects, and the more rapid response to change in

dosage makes bethanidine (ESBATAL) a more satisfactory drug."⁽³⁾

"Thus bethanidine (ESBATAL) not only on grounds of cost but also because of its therapeutic effectiveness has a strong claim to be considered as today's first choice of drug treatment of severe hypertension."⁽⁴⁾

The need for Septrin is

frequent, urgent and burning

Superior to ampicillin or sulphadimidine

In a comparative trial,¹ cure rates achieved in urinary tract infections were 85% with SEPTRIN*, 70% with ampicillin and 40% with sulphadimidine. SEPTRIN was judged "clearly superior to either of the other treatments".²

(Cure criterion = eradication of infecting organism 1 week after end of treatment).

SEPTRIN

First in Urinary Infections
double blockade of bacterial metabolism
means resistance is unlikely to develop

Two extra minutes of your time could add years to her life

Her complaint is a burnt arm—but what is her blood pressure?

'... no doctor should miss an opportunity to record the blood pressure of a young or middle-aged patient who is a rare visitor to the surgery.'¹

'Screening for hypertension has attracted less detailed discussion than screening for diabetes, anaemia, cervical cancer, glaucoma, or phenylketonuria. This is surprising, since it is common, dangerous, affects an economically important age-group, is usually symptomless, and is treatable at primary-care level with proven effect on mortality.'²

'Generally... [high blood pressure] comes to the attention of the doctor only when it is severe enough to cause symptoms, or when some major complication has supervened. Such cases represent no more than the tip of the iceberg, and epidemiological and actuarial studies have shown that the far more numerous cases of less

severe hypertension represent a major hazard to life and health.'³

'A man of 40 with a blood pressure of 160/100 mm. Hg has approximately two-and-a-half times the chance of dying before he is 65 than has a man of the same age with a blood pressure of 120/80 mm. Hg.'⁴

You can't
solve your
patients'
problems...

No traditional tranquillizer works in the way that Integrin does.

Integrin not only relieves the symptoms but corrects the disturbed brain chemistry in anxiety – a factor making it “significantly superior to diazepam.”¹

Integrin gives rapid clinical improvement², enhances mood and relieves depressive overlay³

And its dosage can be adjusted to suit individual patient response.

Isn't Integrin just what's needed these days, to help your patient cope?

Improvement in 90 % of all cases of anxiety

Fast clinical response

Improves on the results of previous treatments

Less effect on reaction time

Relieves depressive overlay

INTEGRIN
capsule 10mg

the 'fundamental' treatment for anxiety

...you can
help her cope
with them

The 'fundamental' treatment for anxiety

INTEGRIN
capsule 10mg

combats the basic biochemical disturbance in the brain

helps your patient come to better terms with her problems

provides a better treatment basis than traditional tranquillizers

Each Integrin capsule contains oxypertine 10mg
Integrin is a registered trade mark

Now you can prescribe aspirin
LONG-TERM
in rheumatoid and
osteo arthritis

Levius

Each tablet contains 35,000 microgranules of aspirin individually protected by a coating of inert ethylcellulose

Magnification x 15

The ethylcellulose coating is designed to protect the gastric mucosa against the irritant action of aspirin without reducing the effectiveness of the drug. Aspirin is released through the coating of the microgranules at a controlled rate enabling relief of pain to be prolonged.

long-term aspirin

Levius

*Microcapsules magnified 250 times,
The coating can be clearly seen*

Levius:
each tablet contains 500mg. of acetylsalicylic acid
in micro-encapsulated form.

Levius: registered trade mark
