

AS A NAVAL DOCTOR, YOU'D GET A WHOLE LOT MORE OUT OF LIFE.

(AND SO WOULD YOUR FAMILY)

Right from the start, you'd have a complete change of scene.

Serving either with the Navy at sea or among service personnel and their families at a naval establishment. Very likely in another part of the world.

Either way, you'd never find yourself short of assistance. (Every naval doctor is fully supported by medical staff).

Equally important, you'd never find yourself getting into a rut – for in two years or so you'd receive a new appointment.

In a new place. Doing a different job. Perhaps with the chance to learn something of the special problems of diving, aviation, or tropical medicine for example.

It's a stimulating life. Not only for yourself but for your family too.

For in most cases they'd accompany you. And wherever you go there are usually married quarters – fully furnished houses or flats, equipped with everything you need. And at very reasonable rents.

What's more, a generous education

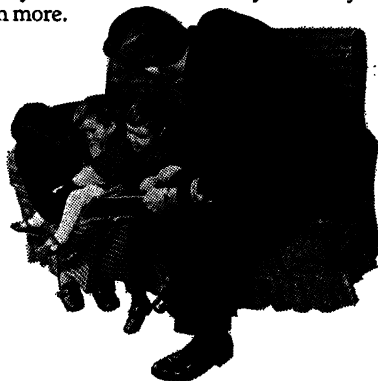

allowance is made for your children if they are at boarding school. £330 p.a. for a first child, £393 p.a. for a second, £471 p.a. for a third. On top of this, removal and other allowances are also provided.

Add this to the salary and you'll see how well a naval doctor's pay compares with a civilian doctor's.

For instance, with five years' post registration experience you would join us as a Surgeon Lieutenant-Commander on £4,767 a year.

And any specialist qualifications/experience you have could increase your salary even more.

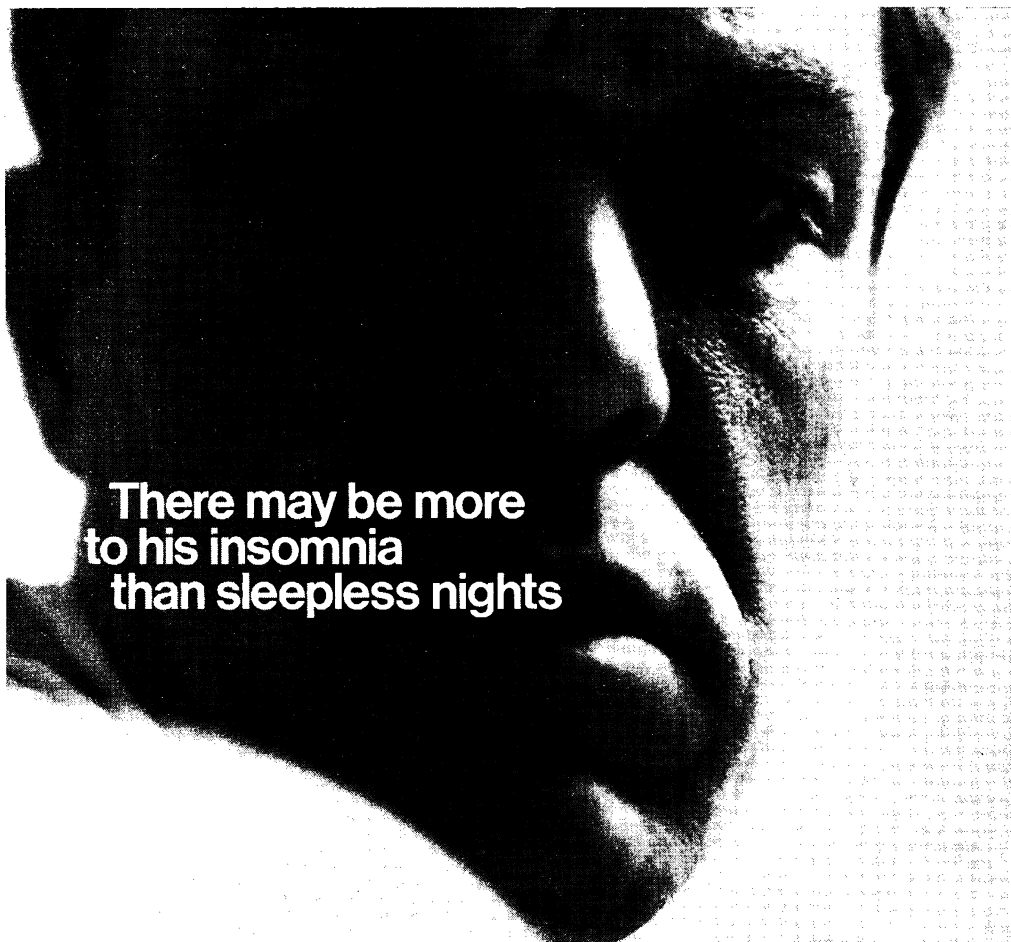

There are opportunities, too, to keep up with the latest developments in medicine. For the Navy fully recognises the need for such opportunities both in the interests of naval medicine and a doctor's professional advancement.

That's not all. You can join on a 3-year or 5-year commission (each carrying a tax-free terminal gratuity of £1,500 and £3,000 respectively) and you can transfer to a full 16-year pensionable commission if you wish.

Applicants should be of British nationality and parentage. To find out more, write to Surgeon Cdr. F. M. Kinsman, O.B.E., R.N. (811AB2), Dept. of the Medical Director-General (Navy), Empress State Building, London S.W.6.

CHURCHILL LIVINGSTONE

This Angina patient has Trinitrin in his pocket.

Eraldin will help keep it there.

Over 80% of Angina patients treated with 'Eraldin' can do more work⁽¹⁾, have less frequent attacks of pain⁽²⁾ or consume less trinitrin⁽²⁾.

And, because 'Eraldin' is cardio-selective, it is unlikely to precipitate or aggravate heart failure⁽³⁾ and may also be

used in patients with obstructive airways disease⁽⁴⁾. Detailed information is available on request.

A new acquaintance a good

 **Bencard**

can soon become friend.

Amoxil can soon become a good friend because of its reliability in the routine treatment of a wide range of infections.

Outstanding oral absorption, not greatly affected by the presence of food, broad spectrum of activity and bactericidal action are among the more notable qualities of Amoxil.

Rapid decisive action coupled with the degree of safety associated with penicillin therapy inspires a high level of confidence in everyday use.

A convenient t.d.s. dosage, independent of meal times, a range of highly acceptable presentations, treatment costing as little as 16p per day – further good reasons why Amoxil represents practical antibiotic therapy at its best.

Extensive clinical trials have demonstrated that in Upper and Lower respiratory infection, Urinary tract and Skin and Soft tissue infections, Amoxil is dependable and trustworthy – as all good friends should be.

Further information on Amoxil (amoxycillin) is available from: Bencard, Freepost, Great West Road, Brentford, Middlesex.

To help you further in your practice Amoxil starter packs are available from your Bencard representative or from the Company

Prescribing information

Dosage: Adults 250 mg three times a day.

Children – up to 10 years: 125 mg three times a day. In the case of severe infections the dosage should be doubled.

Contra-Indication: Amoxil is a penicillin and should not be given to penicillin-hypersensitive patients.

Side Effects: In clinical trials involving more than 1,500 patients no serious side effects were reported. Those side effects which were encountered were of a mild transitory nature.

URTI Chest infections UTI Skin and soft tissue infections

AMOXIL

an excellent antibiotic for routine treatment

make him cough up

Even the meanest of bronchial conditions "give" with LINCTIFED EXPECTORANT: the formula which really assists and maintains free mucus flow. LINCTIFED EXPECTORANT loosens thick tenacious sputum, decreases mucosal congestion and controls irritating, unproductive cough.

LINCTIFED EXPECTORANT* contains guaiphenesin, pseudoephedrine, triprolidine and codeine in a balanced formulation. Full information is available on request.

earning power

Interest rates offered to big investors and small savers alike are many and varied, but each investment has its own particular set of terms and conditions.

Some investments tie up your savings for a fixed period of years, whilst others offer prompt withdrawal facilities.

Some are designed to provide regular income; others offer capital growth. Either may or may not be taxable.

Both may incorporate life assurance and the income tax relief then obtainable can further improve the attractiveness of the investment.

It's all very confusing unless you are a financial expert. How else can you choose a plan to suit your own particular needs and be safe in the knowledge that the Company to which you are to entrust your savings is absolutely secure?

Whether you are interested in saving a monthly sum out of salary, or making a single investment, you would be wise to consult the experts at the M.I.A. They are there to help you, as they have helped thousands of your colleagues—their advice is free and entirely without obligation.

EPIDEMIOLOGY IN COUNTRY PRACTICE

by

W. N. PICKLES

This classic book from general practice has not been available for many years.

A special facsimile of the 1939 edition has now been published by the Royal College of General Practitioners in a *limited edition* of 1,000 copies. Any profits will go to the college appeal.

Copies are available from the address below and orders will be dealt with in turn while stocks last.

Cheques should be made payable to the Royal College of General Practitioners and orders sent to: Bookpack Department, The Royal College of General Practitioners, Kitts Croft, Writtle, Chelmsford CM1 3EH. Price: £3 post free, cash with order.

You can't solve your patient's problems...

No traditional tranquillizer works in the way that Integrin does.

Integrin not only relieves the symptoms but corrects the disturbed brain chemistry in anxiety – a factor making it “significantly superior to diazepam.”¹

Integrin gives rapid clinical improvement², enhances mood and relieves depressive overlay³

And its dosage can be adjusted to suit individual patient response.

Isn't Integrin just what's needed these days, to help your patient cope?

Improvement in 90 % of all cases of anxiety

Fast clinical response

Improves on the results of previous treatments

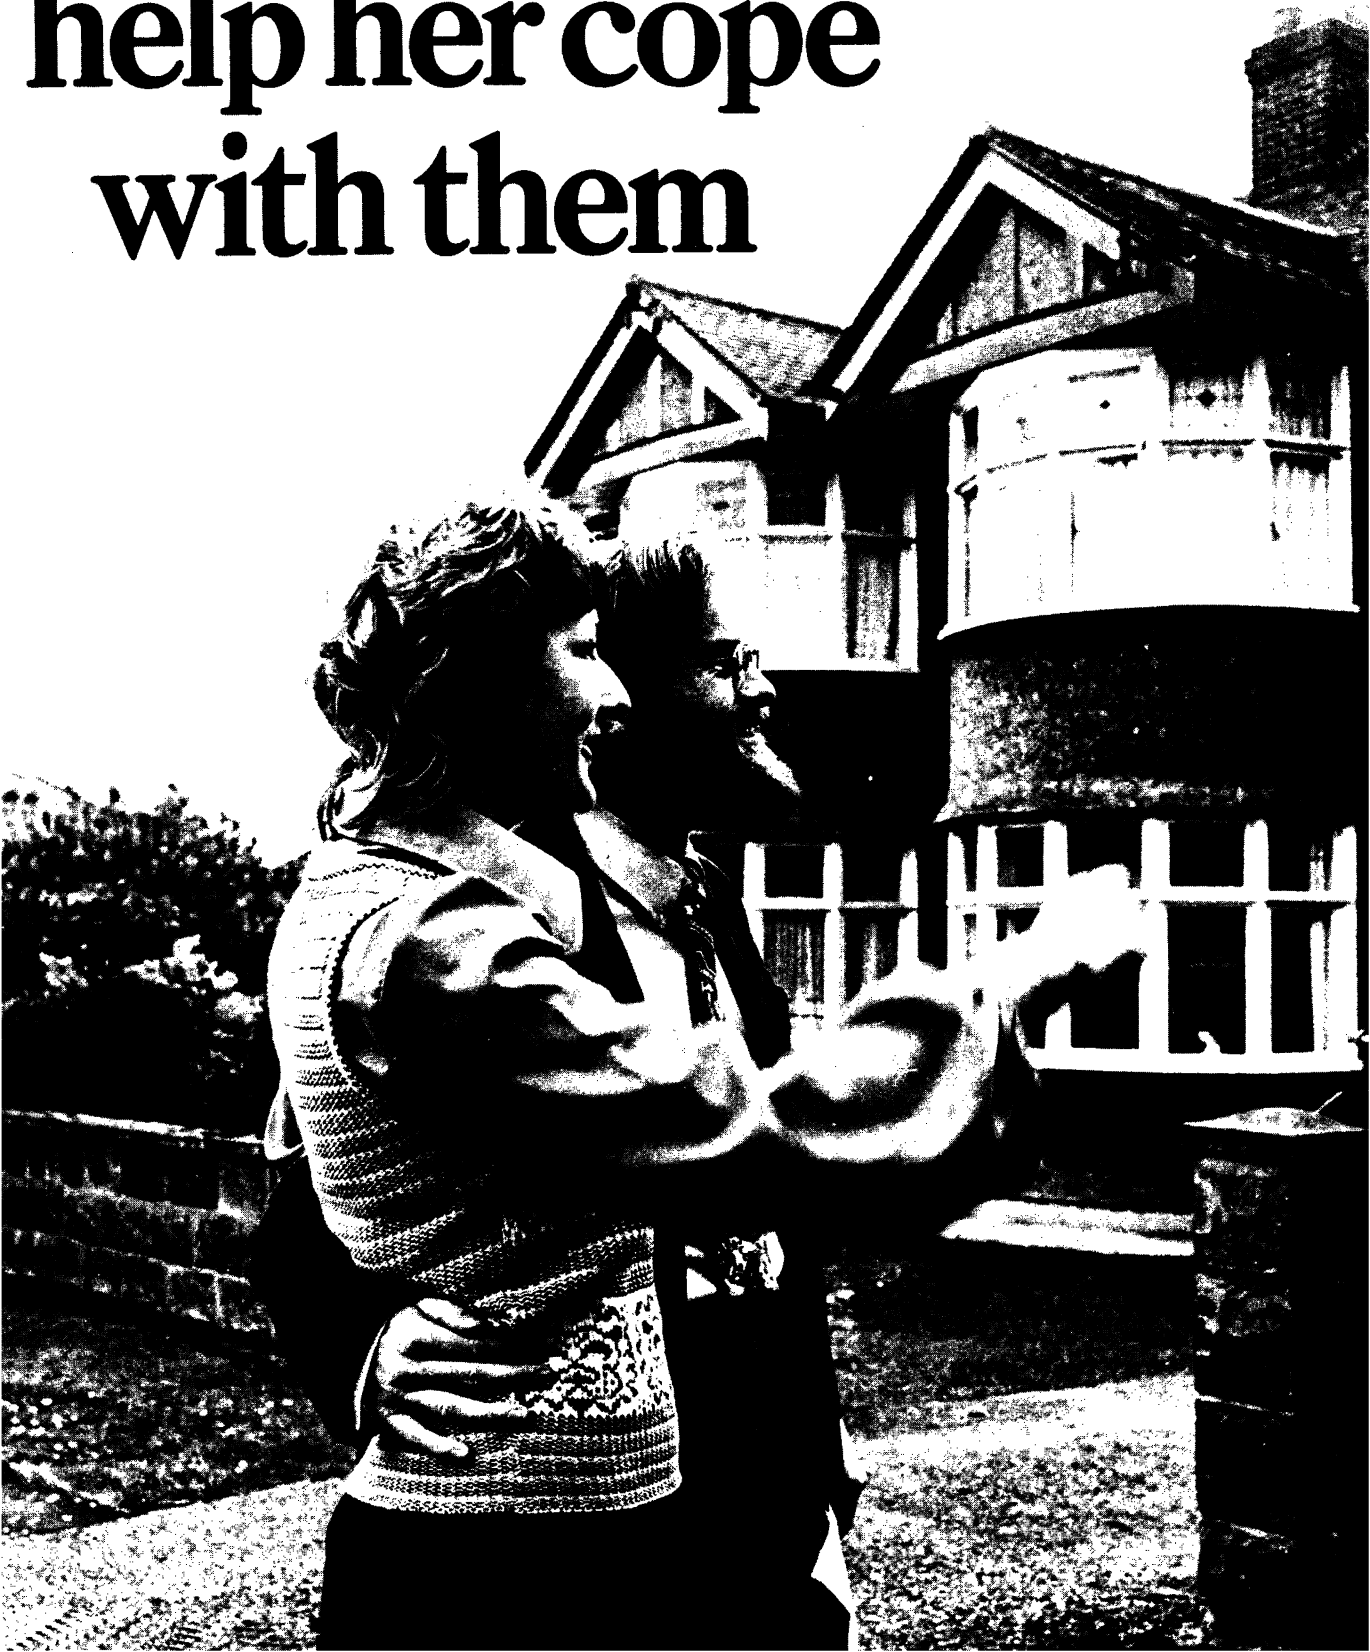

Less effect on reaction time

Relieves depressive overlay

INTEGRIN
capsule 10mg

the 'fundamental' treatment for anxiety

**...you can
help her cope
with them**

The 'fundamental' treatment for anxiety

INTEGRIN
capsule 10mg

combats the basic biochemical disturbance in the brain

helps your patient come to better terms with her problems

provides a better treatment basis than traditional tranquillizers

Each Integrin capsule contains oxypertine 10mg
Integrin is a registered trade mark
