TEACHING PRACTICES

by

DONALD IRVINE, M.D., F.R.C.G.P.

One of the most important developments in medical education in recent years has been the introduction of three-year training programmes for general practice. *Teaching Practices* outlines many of the characteristics of the teachers, and, particularly, the practices where this work is being done.

This is the most detailed and authoritative report on this subject so far published and introduces a new system of scoring teaching practices.

Copies are available now from the Longman Group Ltd., 43-45 Annandale Street, Edinburgh EH7 4AT, Scotland, price £1.00 (\$3.50).
