SEPTRIN first in urinary tract infection

A doctor can gain a lot from 5 years in the Royal Navy.

As a qualified doctor, you can join the Royal Navy for 3 or 5 years on a Short Service Commission.

In that time, you'll spend up to a year practising medicine in a Naval ship.

You could have the chance of working and

living overseas for a time.

And you'll be able to do your General Professional Training in one of the clinical and medical scientific disciplines at a Naval hospital or an RN establishment.

At sea.

After a short Officers course at the Royal Naval College, Dartmouth, and a basic course in maritime medicine at the Institute of Naval Medicine, Alverstoke, you'll normally go to sea for about 12 months.

You'll be responsible for the medical care of some 250 to 500 men in your ship (and advise the Captain on health and environmental

problems).

You won't lose touch with modern medicine, as you can visit local hospitals in ports of call and use the teaching aids provided by your Naval tutor.

Postgraduate training and specialisation.

After your sea-time, career counselling will determine your postgraduate training

programme.

There are opportunities for General Professional Training in preparation for a clinical career in general practice, the hospital specialities, or the medical scientific disciplines such as Aviation, Underwater, Submarine and Nuclear Medicine; or in Occupational and Community Medicine.

If you decide to transfer to a 16-year pensionable Commission, or a permanent Commission, you could move on to recognised higher training programmes which include research training and higher training posts in civilian units.

At Alverstoke, the Dean of Naval Medicine co-ordinates postgraduate medical training and research.

Naval hospitals.

The two largest are at Haslar (near Portsmouth) and Plymouth.

They undertake the care of Naval personnel, their families and NHS civilians, providing a broad spectrum of clinical material. Both hospitals are recognised for higher training in the major specialities.

There is a full range of modern, technical equipment, and the nursing and paramedical

staff are highly skilled.

There are smaller hospitals in Malta and Gibraltar.

Salary.

If you join us immediately after registration, your salary will be £5,997 as a Surgeon Lieutenant.

You can, however, join at any age up to 39. In that case, your postgraduate experience is taken into account, and you could join as a Surgeon Lieutenant Commander earning £8,015 a year.

If you leave at the end of your 3 year Commission, you'll receive a tax-free gratuity of

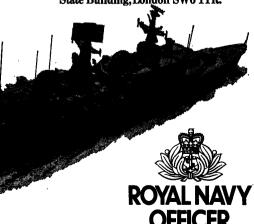

£1,500, or, after 5 years, £3,000.

If you decide to stay on, you can apply for a 16-year pensionable Commission or a permanent Commission.

The salary structure is based on an analogue computed from the average earnings of general practitioners in the NHS, with an additional X factor. There is extra pay for recognised postgraduate qualifications and Senior Specialist or Consultant status.

If you're posted overseas, you can, of course, take your family with you. There are, too, generous boarding school allowances for your children, starting at £807 for your first child.

For more information, write to Surgeon Commander H.B. Blackstone, MRCS, LRCP, MRCGP, RN, (811 MF5), Medical Directorate General (Navy), Ministry of Defence, Empress State Building, London SW6 1TR.

UNIVERSITY OF BRISTOL

AVON VOCATIONAL TRAINING SCHEME FOR GENERAL PRACTICE

Applications are invited for a three-year traineeship in Vocational Training for General Practice, consisting of two years' hospital training and a one-year traineeship in an approved practice.

After a short period of orientation of not more that three months in the training practice, trainees will start hospital appointments at S.H.O. level in a Bristol hospital. Two of the rotations offered are: six months in medicine, six months in obstetrics with gynaecology, three months in paediatrics and three months in geriatrics; the remaining six-month period in hospital will be partly of wholly elective, when opportunities will be given to gain experience in special hospital, and other, departments. The trainee will complete the year in practice before or after this elective period. The third rotation will consists of four six-month appointments in the following specialties: accident and emergency, paediatrics, geriatrics, and psychiatry. A half-day release course is run during University term-time throughout the three years.

The orientation period in practice should start in June 1977, the first hospital appointments to commence on 1 August 1977.

Applicants who are suitably qualified should write giving details of previous experience, the names and addresses of two referees and quote a date when they would anticipate being able to start the preliminary orientation period in practice. Applications should be received by 30 November 1976.

It may also be possible to assist practitioners who have already partly fulfilled the necessary criteria and who wish to complete the requirements for vocational training. The course is recognised for the Vocational Training Allowance by the D.H.S.S. and also for the M.R.C.G.P.

Applications and requests for further information should be sent to:

The Course Organiser,
Medical Postgraduate Department,
University of Bristol,
21 Woodland Road,
Bristol, BS8 1TE.

Journal of the Royal College of Physicians of London

This Journal is concerned with the integration of scientific disciplines in the practice of medicine and, by providing a wide ranging commentary on the growing points of medicine, is an essential complement to the specialised journals.

THE EAST LONDON GENERAL PRACTITIONER VOCATIONAL TRAINING SCHEME IN CONJUNCTION WITH THE LONDON HOSPITAL

Applications are invited for the first four posts in this scheme, starting on 1 February 1977. Each trainee will spend one month in general practice, two years rotating in posts at The London Hospital and, finally, one year in general practice. The hospital posts include Obstetrics and Gynaecology, Geriatrics, General Medicine, Paediatrics, Psychiatry, and the Emergency and Accident Department, A half-day release course for all the trainees in the scheme will be held at the East London Post-graduate Medical Centre, Bethnal Green. Applicants will be welcome to visit the training practices. Further details may be obtained from the Course Organiser, Dr R. M. Griffiths, 35, High Street South, East Ham, London, E.6, or from the Medical Staffing Officer. Applications (no forms provided), giving the names and addresses of two referees, should be received by 5 November 1976 and addressed to The Medical Staffing Officer, The London Hospital, Whitechapel, E1 1BB.

REPLIES TO ADVERTISEMENTS

Readers are asked to mention *The Journal* of the Royal College of General Practitioners when replying to all advertisements.

CLASSIFIED ADVERTISEMENTS

Classified advertisements are welcomed and should be sent to: The Journal of the Royal College of General Practitioners, Longman Group, Burnt Mill, Harlow, Essex. The charge for this service is 50p per line, plus 25p if a box number is required. Fellows, members and associates of the Royal College of General Practitioners may claim a ten per cent reduction.

The inclusion of an advertisement in this Journal does not imply any recommendation and the Editor of the Journal of the Royal College of General Practitioners reserves the right to refuse or stop the insertion of any advertisement.

Cornwall Postgraduate Medical Centre

TWO-DAY REFRESHER COURSE FOR GENERAL PRACTITIONERS

11-12 November 1976

A two-day refresher course will be held at the Royal Cornwall Hospital (Treliske), Truro. One study day is devoted to cardiology and one to diabetes.

The Course is approved under Section 63 and will be restricted to not more than 40 applicants. Enquiries and applications should be sent to: The Secretary, Cornwall Postgraduate Medical Centre, R.C.H. (Treliske), Truro. TR1 3LJ Cornwall.

Opinions expressed in *The Journal of the Royal College of General Practitioners* and the supplements should not be taken to represent the policy of the Royal College of General Practitioners unless this is specifically stated.

Old established practice in Hull requires 4th man to replace retiring senior. Equal work and rota system of seven for night duty. All diagnostic and postgraduate facilities at new general hospital within half mile of central surgery with no branches. New Health Centre is planning to take the seven doctors in existing rota. District nurses and health visitor attachments. Appointment system. G.P. maternity unit. Deputising service available. Opportunity for clinical assistant-ships. £6,000 p.a. for 3 months as assistant commencing January then partnership with parity in 4 years. Write Drs Haigh, Thomas and Knox, 264–266 The Boulevard, Hull.

Replacement 4th partner required S. Devon resort practice. G.P. hospital; Maternity; Open access on pathology and x-rays; Postgrad medical centre at Torbay Hospital; Equal rota; D.(Obst) and/or D.C.H. advantage. Terms by negotiation.
