# The Journal of The Royal College of General Practitioners

Volume 30

Number 216

July 1980

**Editorials**

Medical records — the need for reform  
Computers in Primary Care  
Section 63 Activities

**Medical audit**

Psychotropic drug prescribing: a self-audit  
Medical audit of the care of patients with epilepsy  
One practice's use of a general practitioner hospital  
Acute myocardial infarction: diagnosis in general practice

**Medical records**

Recording information about immunizations  
The point accuracy of paediatric population registers  
Ancillary-written prescription errors

**Why not?**

Why not let patients keep their own records?  
Why not sort out our records?  
Why not use local maps in general practice?

**Balint groups**

General Practitioner Seminars at the Tavistock Clinic
