When a patient comes to you with flu, maybe you should recommend Flora.

Perhaps the best time to start your patients thinking more seriously about their health is when they come to you with some more routine complaint.

It is now widely accepted that changes in diet and lifestyle can dramatically decrease the risk of Coronary Heart Disease developing.

So the best time to recommend Flora is before, not after, any symptoms of CHD present themselves.

Flora is high in essential polyunsaturated fats (cis-cis linoleic), because it is made with pure sunflower oil.

Whenever an opportunity arises to recommend ways in which your patients could reduce the CHD risk factors, recommend they change to Flora, too.

Flora. High in essential polyunsaturates.
The Cardio-Protectors

TENORMIN for moderate hypertension
TENORMIN LS for mild and older hypertensives

'Tenormin' and 'Tenormin' LS Prescribing Notes

PRESENTATION: 'Tenormin' tablets containing atenolol 100mg are round, bi-convex, orange and film coated. 'Tenormin' LS tablets containing atenolol 50mg are round, bi-convex, orange and film coated.

USES: Management of Hypertension.

DOSEAGE: 'Tenormin' 100mg orally once a day and 'Tenormin' LS orally once a day; some patients may respond adequately to 'Tenormin' low strength.

CONTRA-INDICATIONS: Heart Block.

PRECAUTIONS: Untreated cardiac failure, bradycardia, renal failure, anaesthesia, pregnancy. Caution in patients with chronic obstructive airways disease or asthma. 'Tenormin' modifies the tachycardia of hypoglycaemia. Co-administration of verapamil or Class I antiarrhythmic agents. Withdrawal of clonidine. Withdrawal of beta-blocking drugs should be gradual in patients with ischaemic heart disease.

SIDE EFFECTS: Coldness of extremities, bradycardia and muscular fatigue may occur. Sleep disturbance rarely seen. Rashes and dry eyes have been reported with beta-blockers—consider discontinuance if they occur.

PRODUCT LICENCE NUMBER: 'Tenormin' 29/122; 'Tenormin' LS 29/86.

'Tenormin,' 'Tenormin' LS are trademarks:

Full prescribing information is available on request to the Company.

Hypertension?

Adalat retard
(nifedipine)
relieves the pressure

Prescribing Information. Presentation:
Pink-grey coated tablets each containing 20mg nifedipine. Indications: For the treatment of hypertension. Dosage and Administration: The recommended dose for Adalat Retard is one 20mg tablet twice daily and if necessary a further tablet may be taken according to the patient's response. Treatment may be continued indefinitely. Contra-Indications: Must not be given to women capable of child bearing. Warnings and Precautions: Adalat Retard is not a beta-blocker and therefore gives no protection against the dangers of abrupt beta-blocker withdrawal; any such withdrawal should be by gradual reduction of the dose of beta-blocker, preferably over 8-10 days. Adalat Retard may be used in combination with beta-blocking drugs and other anti-hypertensive agents, but the possibility of an additive effect resulting in postural hypotension should be borne in mind. Adalat Retard will not prevent possible rebound effects after cessation of anti-hypertensive therapy. Adalat Retard should be used with caution in patients whose cardiac reserve is poor. Ischaemic pain has been reported in some patients, commonly within 30 minutes of the introduction of nifedipine therapy. Patients experiencing this effect should discontinue nifedipine. The use of nifedipine in diabetic patients may require adjustment of their control. There is no known drug incompatibility. Side Effects: Adalat Retard is well tolerated. Minor side-effects, usually associated with vasodilatation are mainly headache, flushing and lethargy. These are transient and invariably disappear with continued treatment. Overdose — standard measures such as atropine and noradrenaline may be used for resultant bradycardia and hypotension. Intravenous calcium gluconate may be of benefit. Pack Quantities: Adalat Retard tablets are available in foil strips of 10 in packs of 100. Daily Treatment Cost: 39p. Product Licence Number: Adalat Retard UK: PL0010/0078.

BOOKING FOR MATERNITY CARE
A COMPARISON OF TWO SYSTEMS

Occasional Paper 31

Do women care where their babies are delivered? Can the differences they experience in two different systems of care be measured?

Professor Michael Klein, from a Department of General Practice in Canada, and Ms Diana Elbourne, from the National Perinatal Epidemiology Unit in Oxford, used research material gathered in Oxford to carry out a detailed study of the views of mothers booked for delivery in a general practitioner unit and those booked for shared care in a specialist consultant unit. The findings are of considerable interest particularly in relation to women booked for general practitioner care. The study thus contributes to the continuing debate about the appropriate place of general practitioner obstetrics in a modern health system.

Booking for Maternity Care – A Comparison of Two Systems, Occasional Paper 31, can be obtained from the Publications Sales Office, Royal College of General Practitioners, 8 Queen Street, Edinburgh EH2 1JE, price £3.50 including postage. Payment should be made with order.

PRIORITY OBJECTIVES
FOR GENERAL PRACTICE VOCATIONAL TRAINING

Occasional Paper 30

One of the biggest problems in vocational training for general practice has been the need to design courses appropriate for doctors preparing to work in the widest of all medical roles. The need is to decide what subjects are important and what priority objectives should be.

This Occasional Paper comes from the Course Organizers and Regional Advisers Group in the Oxford Region, which has a distinguished record in developing vocational training. Based on widespread consultation within the Region, the group achieved a consensus on its priorities, which it lists under five headings: primary care, communication, organization, professional values, and personal and professional growth. It therefore provides a useful basis for discussion in other regions.

Priority Objectives for General Practice Vocational Training, Occasional Paper 30, is available from the Publications Sales Office, Royal College of General Practitioners, 8 Queen Street, Edinburgh EH2 1JE, price £3.50 including postage. Payment should be made with order.

COLLEGE ACCOMMODATION

Charges for college accommodation are reduced for Fellows, Members and Associates. Members of overseas colleges are welcome when rooms are available, but pay the full rate. All charges for accommodation include a substantial breakfast and now include service and VAT.

Children aged six and over can be accommodated when accompanied by a parent, and arrangements can be made for young children to share a room with their parents at a reduced rate. Children over six may use the public rooms when accompanied by their parents. Younger children cannot be accommodated, and dogs are not allowed. Residents are asked to arrive before 21.00 hours to take up their reservations or, if possible, earlier.

As from 1 April 1985 the room charges per night are:

<table>

Enquiries should be addressed to:
The Accommodation Secretary
Royal College of General Practitioners
14 Princes Gate, Hyde Park
London SW7 1PU. Telephone: 01-581 3232.

Whenever possible, bookings should be made well in advance and in writing. Telephone bookings can be accepted only between 08.30 and 18.00 on Mondays to Fridays. Outside these hours, an Ansafone service is available. A cancellation fee of 25 per cent may apply if cancellation is made within 24 hours of the due date.
Opinions expressed in The Journal of the Royal College of General Practitioners and the supplements should not be taken to represent the policy of the Royal College of General Practitioners unless this is specifically stated.

MEDICAL INSURANCE CONSULTANTS

We offer free impartial advice to the medical profession on the following:

SURGERY MORTGAGES — Up to 100% advance

PENSION SCHEMES FOR WIVES

RESIDENTIAL MORTGAGES — Up to 100 per cent

PRIVATE PRACTICE PENSION SCHEMES

REMOPTGAGING AT COMPETITIVE RATES

SCHOOL FEE PLANNING — Immediate Fee Scheme available

SURGERY AND RESIDENTIAL CONTENTS INSURANCE

INVESTMENT PLANNING SICKNESS AND ACCIDENT COVER

To Medical Insurance Consultants, FREEPOST,
9 Princes Street, Yeovil BA20 1YR
Telephone 0935 77471.

10th INTERNATIONAL CONGRESS OF HYPNOSIS AND PSYCHOSOMATIC MEDICINE

TORONTO, ONTARIO, CANADA
AUGUST 10–16, 1985

The International Society of Hypnosis invites medical, dental, and psychology professionals to attend this exciting Congress.

1. Workshops — Introductory and a diversity of specialized advanced medical, dental and psychotherapy workshops will be offered by an international faculty of leaders in the field.

2. Scientific programme — Theoretical, research and clinical papers on a wide range of topics of contemporary interest.

3. Special events — A wide range of events and educational functions for attendees and their affiliates, including ‘Mesmer’ a play by Norman Cousins, with Jerome Lawrence and Robert E. Lee, and a special presentation by Norman Cousins.

For further information contact: Secretariat, 10th International Congress of Hypnosis and Psychosomatic Medicine, 200 St. Clair Ave. West, Suite 402, TORONTO, Ontario, Canada M4V 1R1 416-922-8300.
The Royal College of General Practitioners
The Association for the Advancement of Psychoanalytic Psychotherapy in the National Health Service

ONE DAY CONFERENCE ON PSYCHODYNAMIC UNDERSTANDING AND GENERAL PRACTICE

Saturday 1 June 1985

This joint conference is being held at the Royal Society of Medicine, 1 Wimpole Street, London W1, on Saturday 1 June 1985 for general practitioners and other members of the primary health care team. The focus will be on the clinical relevance of psychodynamic understanding within general practice. Papers will be presented by both general practitioners and psychoanalytic psychotherapists involved with general practice.

Speakers from general practice will include: Dr Paul Julian, Professor James McCormick and Professor David Metcalfe. Speakers from psychoanalytic psychotherapy will include: Dr Alexis Brooke, Dr Elspeth Earle, Dr Harold Stewart and Mr David Tuckett.

(Please show this advert to your Practice Manager, Health Visitor and District Nurse).

For further details and an application form, please apply to: Mrs Sue Smith, Education Division, The Royal College of General Practitioners, 14 Princes Gate, London SW7 1PU.

Approval under Section 63 for two sessions.

THE ROYAL COLLEGE OF GENERAL PRACTITIONERS

Physiotherapy: the orthodox alternative

WHOM to refer WHEN to refer WHAT to expect

Saturday 18 May 1985

A one day seminar is being held at the Royal College of General Practitioners, 14 Princes Gate, London SW7 1PU, on Saturday 18 May 1985.

The purpose of this seminar is to promote and encourage closer liaison between chartered physiotherapists and general practitioners. The subjects covered will include the assessment, evaluation and treatment of bony, soft tissue and sports injuries, respiratory and neurological conditions. The seminar will include lectures providing background and specific information, practical demonstrations to reinforce techniques, discussion, and practical workshops providing delegates with the opportunity to participate. The course is open to registered medical practitioners.

For further details and an application form, please apply to: Mrs Sue Smith, Education Division, The Royal College of General Practitioners, 14 Princes Gate, London SW7 1PU.

Approval under Section 63 is being sought.

UNIVERSITY OF GLASGOW

AUDIO VISUAL SERVICE

MRCGP ORALS

VIDEO SERIES: ORAL EXAMINATION FOR MEMBERSHIP OF THE ROYAL COLLEGE OF GENERAL PRACTITIONERS

This series of four video-programmes (referred to, for short, as 'The MRCGP Orals') was produced at the University of Glasgow for the Committee in General Practice, West of Scotland Committee for Postgraduate Medical Education.

Examination of candidates for membership of the Royal College of General Practitioners, comprises three written papers and two thirty-minute oral examinations. The programmes were recorded at a time when the candidates participating, were between their actual written examinations and their orals. Four candidates were examined, two to illustrate the RCGP "First Oral" and two, the "Second Oral".

While the orals featured were simulated, care was taken to ensure that camera rehearsals and other studio preparation was kept to a minimum so as to avoid any detriment from the procedure and degree of formality normally followed during actual RCGP examinations. Each programme consists of an introduction by Dr T. Stuart Murray (one of the examiners), a thirty-minute oral of one candidate by two examiners, the examiners' discussion during which a score is awarded and, finally, Dr T. Stuart Murray's summing-up in which he comments on the number of decision-making, knowledge and attitudinal questions used.

Duration of each programme is around forty minutes. Copies for sale on U-matic, Beta and VHS.

For further information contact: Mrs Lysbeth MacLeod, University of Glasgow, 64 Southpark Avenue, GLASGOW G12 8LB. Tel: 041-339 8855 Ext. 585 or 611.
