

Hypertension?

Adalat[®] (nifedipine) retard

relieves the
pressure

Prescribing Information. Presentation: Pink-grey coated tablets each containing 20mg nifedipine. **Indications:** For the treatment of hypertension. **Dosage and Administration:** The recommended dose for Adalat Retard is one 20mg tablet twice daily and if necessary a further tablet may be taken according to the patient's response. Treatment may be continued indefinitely. **Contra-Indications:** Must not be given to women capable of child bearing. **Warnings and Precautions:** Adalat Retard is not a beta-blocker and therefore gives no protection against the dangers of abrupt beta-blocker withdrawal, any such withdrawal should be by gradual reduction of the dose of beta-blocker, preferably over 8-10 days. Adalat Retard may be used in combination with beta-blocking drugs and other anti-hypertensive agents, but the possibility of an additive effect resulting in postural hypotension should be borne in mind. Adalat Retard will not prevent possible rebound effects after cessation of anti-hypertensive therapy. Adalat Retard should be used with caution in patients whose cardiac reserve is poor. Ischaemic pain has been reported in some patients, commonly within 30 minutes of the introduction of nifedipine therapy. Patients experiencing this effect should discontinue nifedipine. The use of nifedipine in diabetic patients may require adjustment of their control. There is no known drug incompatibility. **Side Effects:** Adalat Retard is well tolerated. Minor side-effects, usually associated with vasodilatation are mainly headache, flushing and lethargy. These are transient and invariably disappear with continued treatment. Overdosage - standard measures such as atropine and noradrenaline may be used for resultant bradycardia and hypotension. Intravenous calcium gluconate may be of benefit. **Pack Quantities:** Adalat Retard tablets are available in foil strips of 10 in packs of 100. **Daily Treatment Cost:** 39p. **Product Licence Number:** Adalat Retard UK: PL0010/0078.

Consult the experts in the LIBRARY OF GENERAL PRACTICE

... a series of books for GPs, by GPs, about medical problems encountered in the community. Each volume deals with an important aspect of general practice, written by a GP well-known for his work in the field, often in association with a specialist of his choice.

JUST PUBLISHED ...

Volume 9

Towards Better Practice

Peter Martin, Alistair J. Moulds and Patrick J. C. Kerrigan

1985 272 pages 32 illus paperback £12.50

- Discusses the underlying philosophy and organization of good general practice
- Offers guidance to GPs on the effective handling of workload and work systems—to the ultimate benefit of the GP, his family, patients, partners, staff and fellow primary care workers

Volume 10

Ear, Nose and Throat Disorders

Gordon W. Hickish

1985 232 pages 87 illus paperback £14.95

- Considers ENT disorders against a background of epidemiology and normal anatomy and function
- Describes practical procedures and the GP's potential scope in diagnosis and management

Earlier volumes

Volume 1

Hypertension

Julian Tudor Hart

1980 322 pages 22 illus paperback £10.95

"... a very important contribution to the educational material available in the general practice field."

Practice Library

Volume 2

The First Year of Life

Graham Curtis Jenkins and Richard C. F. Newton

1981 288 pages 12 illus paperback £9.95

- Covers the field of child health from conception to the end of the first year
- Describes in detail the illnesses and problems likely to be met by a GP attending to very young children

Volume 3

Rheumatology in General Practice

Michael Rogers and Norman Williams

1982 240 pages 47 illus paperback £9.95

"The authors, a general practitioner and a consultant rheumatologist, have responded to the need for a concise, readable

guide directed towards the primary care of day-to-day rheumatology problems. This should prove ideal as a reference book for busy general practitioners, and, more particularly, as a teaching aid for medical students and trainees in general practice."

Rheumatology and Rehabilitation

Volume 4

Renal Medicine and Urology

David Brooks and Netar Mallick

1982 304 pages 28 illus paperback £10.95

- Deals with the renal and urological problems which the GP encounters most often in his practice

Volume 5

The Use of Computers in General Practice

John Preece

1983 208 pages 40 illus paperback £15.00

- Describes the roles, benefits and uses of computers in general practice
- Covers the principles upon which computers operate and describes how they can be introduced successfully and painlessly into the practice setting

Volume 6

Sexual Medicine

G. R. Freedman

1983 204 pages paperback £8.50

- Provides a classification of the multiple factors contributing to sexual dysfunction, particularly psychological and psycho-social factors
- Features a large number of case histories, stressing in particular those cases which are emotionally based

Volume 7

The Care of the Elderly in General Practice

M. Keith Thompson

1984 360 pages 28 illus paperback £14.95

"I have met no more brief yet fascinating guide to the ageing process, or to the scope and pattern of illness in old age."

Age and Ageing

Volume 8

Respiratory Disorders

John Fry, Roger White and Michael Whitfield

1984 200 pages 51 illus paperback £12.00

- Reviews current thinking on respiratory disorders and assesses the latest treatment and drugs

CLASSIFIED ADVERTISEMENTS AND NOTICES

Classified Advertisements are welcomed and should be sent to: *The Journal of the Royal College of General Practitioners*, 8 Queen Street, Edinburgh EH2 1JE. Copy must be received six weeks before the 1st of the month of issue to ensure inclusion. Every effort will be made to include advertisements received after this date but publication cannot be guaranteed and the advertisement may have to be held over to the following issue.

The charge for space in this section is £6.35 per single column centimetre, plus 30p if a box number is required, plus VAT at 15%. Fellows, Members and Associates of the Royal College of General Practitioners may claim a 10% reduction. Replies to box numbers should be sent to the above address, with the box number on the envelope.

The inclusion of an advertisement in this *Journal* does not imply any recommendation and the Editor reserves the right to refuse any advertisement. All recruitment advertisements in this section are open to both men and women.

Opinions expressed in *The Journal of the Royal College of General Practitioners* and the supplements should not be taken to represent the policy of the Royal College of General Practitioners unless this is specifically stated.

THE ROYAL COLLEGE OF GENERAL PRACTITIONERS

ANNUAL SYMPOSIUM

**'QUALITY: WHAT IS IT AND WHAT
STOPS YOU PROVIDING IT?'**

FRIDAY 8 NOVEMBER 1985
BARBICAN CONFERENCE CENTRE
BARBICAN, LONDON

The Annual Symposium will be based on small group work in which members will use their own practice experience to seek ways in which to define quality and identify those factors which inhibit its achievement.

Members attending will be expected to have done two preparatory tasks as a basis for their group work. The morning session is to be on 'quality of care in arthritis' and the afternoon session is to be on 'quality in prescribing'.

If you do not like sitting being lectured at, but do like learning from your peers, and are prepared to invest a bit of preparatory effort, this is the meeting for you.

For further details and an application form please write to: Mrs Sue Smith, Education Division, The Royal College of General Practitioners, 14 Princes Gate, London SW7 1PU.

VISIT KENYA 1985-86

See the gameparks, experience the fishing and learn more of Kenya's TRADITIONAL MEDICINE.

Meet the tribal healers who practice psychotherapy, herbalism and witchcraft and find out about ALTERNATIVE MEDICINE.

For details write to: Mumbiastros, PO Box 11366, Nairobi, Kenya.
