

CLASSIFIED ADVERTISEMENTS AND NOTICES

Classified Advertisements are welcomed and should be sent to: Classified Advertising Manager, T.G. Scott and Son Limited, Media Managers, 30-32 Southampton Street, London WC2E 7HR. Telephone: 01-240 2032. Copy must be received six weeks before the 1st of the month of issue to ensure inclusion. Every effort will be made to include advertisements received after this date but publication cannot be guaranteed and the advertisement may have to be held over to the following issue.

The charge for space in this section is £6.35 per single column centimetre, plus 30p if a box number is required, plus VAT at 15%. Fellows, Members and Associates of the Royal College of General Practitioners may claim a 10% reduction. Replies to box numbers should be sent to the above address, with the box number on the envelope.

The inclusion of an advertisement in this *Journal* does not imply any recommendation and the Editor reserves the right to refuse any advertisement. All recruitment advertisements in this section are open to both men and women.

AN ATLAS OF BEDSIDE MICROSCOPY

Occasional Paper 32

Early diagnosis is one hallmark of success for the primary physician and miniaturization is making this possible in new and exciting ways. In *An Atlas of Bedside Microscopy* Dr Murray Longmore, a general practitioner in Ferring, West Sussex, describes new techniques developed while he was a trainee in which he achieved several significant diagnoses much earlier than he would otherwise have done using conventional laboratory services.

Occasional Paper 32 is the first Occasional Paper to be published by the College which makes extensive use of colour. This enables readers to study the slides as they appeared to the author and to judge for themselves how practical bedside microscopy can be.

An Atlas of Bedside Microscopy, Occasional Paper 32, is obtainable from the Publications Sales Office, Royal College of General Practitioners, 8 Queen Street, Edinburgh EH2 1JE, price £8.50 including postage. Payment should be made with order.

Monit¹⁰ LS

Isosorbide mononitrate 20mg

LOW STRENGTH

THE FIRST STEP
Introducing new 'Monit' LS
Low Strength 'Monit'
for your new mononitrate patients
Rx. 'Monit' LS 1 tablet b.d. initially

Monit²⁰

Isosorbide mononitrate 20mg

Prescribing Notes for 'Monit' and 'Monit' LS

Dosage

PROPHYLAXIS OF ANGINA - Usually one 'Monit' tablet two or three times daily. For patients not receiving prophylactic nitrate therapy, the initial dose should be one 'Monit' LS tablet twice daily. Maintenance dose in individual patients will be between 20 and 120 mg daily.

ELDERLY PATIENTS - Dosage requirements may be reduced, especially in patients with hepatic or renal impairment.

Contra-indications

A known sensitivity to the drug or isosorbide dinitrate.

Warnings

The following adverse effects may be seen with nitrate therapy: 1. Cutaneous vasodilatation, headache, dizziness and weakness may occur. If headache is a problem, a temporary lowering of the 'Monit' dose may be necessary. The incidence of these effects is highest at commencement of treatment and tends to decline with time. 2. Postural hypotension may occur, especially with high doses. 3. Nitrate preparations can act as physiological antagonists to noradrenaline, acetylcholine, histamine and other agents. 4. Dry rash and/

or exfoliative dermatitis have been described rarely with isosorbide dinitrate and similar reactions might be expected occasionally.

Pregnancy and lactation: Nitrates should not be given to pregnant women and nursing mothers unless essential.

Product Licence Numbers and Basic NHS Cost:

'Monit' tablets each containing 20 mg of isosorbide mononitrate 29/174 in calendar packs of 56 tablets, £4.78 or bottles of 100 tablets, £8.40.

'Monit' LS tablets each containing 10mg of isosorbide mononitrate 29/194 in calendar packs of 14 tablets, £0.83.

'Monit' and 'Monit' LS are trade marks.
