

MEDICAL FILM GROUPS

An effort is being made to get together small groups of people, say three or four, throughout the country who would be interested in the making and the shewing of films on subjects connected with general practice. Already, several people in various parts of the country have become interested in this, but more names are wanted. Anybody who is interested in making and shewing 8 mm. films will be welcome to join this venture. An attempt will be made to introduce them to people in their area who have already expressed an interest. Those who would like to take part in this are asked to contact:

Dr G. S. R. Little, 2, Shooter's Hill Road, Blackheath, S.E.3.
