

not, in any part of the world. About two thousand recordings a year are now being sent out from the library.

Small medical societies and groups which have difficulty in finding speakers are our particular interest, and we can usually supply a talk for a meeting, however small, for a particular date, given plenty of notice and a choice of titles.

Most talks are available on both *tape* at $3\frac{3}{4}$ i.p.s. and *disc* at $33\frac{1}{3}$ r.p.m., but some are on tape only, so it is important to state whether tape or disc is required. Some talks have illustrations—diagrams, photographs, or colour transparencies—and some have illustrations in sound.

The following additions have been made to the library:

Tape and Disc

Little Strokes—DR DENIS WILLIAMS. A new approach to the possible cause of dizzy spells and small strokes so often seen in general practice. 35 minutes. (Released from circuit.)

Rheumatoid Arthritis—DR W. S. TEGNER. An evaluation of modern methods of treatment and management of rheumatoid patients. 30 minutes. (Released from circuit.)

Tape only

A Mobile Surgery—DR R. A. BROWN. Describes how he uses a converted motorized caravan in his scattered country practice, instead of branch surgeries. Illustrated. 15 minutes.

General Practice in South Africa Today—DR P. DALGLEISH. Describes the day-to-day life of a general practitioner in Natal. 45 minutes.

An Infected Hand—MR W. A. COE. 7 colour transparencies.

The Acute Abdomen in Casualty—MR. H. B. YOUNG.

Anaesthesia in Casualty—DR J. RICKARDS.

Poisoning—DR S. G. FLAVELL MATTS.

(These four were recorded and presented to the library by Dr Domar of Birmingham.)

Medicine and the Church—a S.E. England Faculty meeting, at which the speakers were Dr David Stafford-Clark and the Bishop of Guildford. Recorded and presented to the library by Dr Gantz and edited by Dr Parker.

The first two booklets in the series, Medical Sound Recording Monographs, are now available, price 1s. 3d. post free: *Recording the Medical Speaker* (16 pp.), and *Recording the Medical Meeting* (24 pp.). Others will be available shortly.

Anyone wishing to join a listening circuit, to obtain the complete library list or to borrow recordings from the library, or who would like to be placed on our mailing list to receive advance information about new titles, should apply to:

Drs John and Valerie Graves, Kitts Croft, Writtle, Chelmsford, Essex.

CORRIGENDUM

It is regretted that Dr Bartley's name was wrongly spelt in his article on **Chlorphentamine (Lucofen) Trial** which appeared in Journal No. 36.
