

# THE MEDICAL SICKNESS SOCIETY

the specialist Insurance Company for the Medical and Dental Professions provides the particular insurances you need at every step in your career.

As a young general practitioner you may need to provide for a family and your children's education. There are specially designed policies for this and, of course, the well known Sickness and Accident Policies that provide an income when you are ill.

Remember, the Medical Sickness Society belongs to the Medical and Dental professions:

*Non-Cancellable, Long Term*

## **SICKNESS AND ACCIDENT INSURANCES**

*with bonuses allotted  
irrespective of claims.*

## **LIFE ASSURANCES**

*Whole Life, Endowment,  
Family Income, Educational  
and Children's Deferred  
Policies.*

## **PENSION POLICIES**

*Special Policies for  
Students and Newly  
Qualified Practitioners.*

## **CAR FINANCE**

*through our Subsidiary  
Company.*

## NOW AVAILABLE IN FIVE PRESENTATIONS

**Cream Powder Jelly Vaginal cream Pessaries**

S.7 is a new non-toxic fungicide and antibacterial agent possessing high activity against a wide range of pathogens associated with mycotic infections of the skin and mucous membranes.

The powerful fungicidal action of S.7 is particularly effective in the treatment of such conditions as dermatophytosis, oral and vaginal moniliasis and otitis externa of fungal origin. Its antibacterial action makes it particularly useful in the treatment of those fungal infections complicated by secondary bacterial infection.

### PACKS:

#### **S.7 Cream**

Fungal infections of the skin and mucous membrane.  
30 g. tube.

#### **S.7 Powder**

Athlete's foot and allied fungal infections.  
15 g. insufflator.

#### **S.7 Jelly**

Oral Thrush; mycotic otitis externa  
15 g. tube.

#### **S.7 Vaginal Cream**

Monilial Vaginitis.  
30 g. tube with 6 disposable applicators.

#### **S.7 Pessaries**

Monilial Vaginitis.  
Carton containing 12 pessaries.

#### **Formula**

1% *bis*-(2-hydroxy-5-chlorophenyl) sulphide

# **Announcing a new major series—** **Concise Medical Textbooks**

A new modern up-to-date series of medical textbooks. Each volume has been written by a leading authority in the field and contains the latest information on the subject together with the essential facts required by all whether practitioner or student.

## **R. M. B. MACKENNA** **DERMATOLOGY**

The main text of the book discusses the various dermatological conditions and diseases under a standard scheme of headings. Information on any condition can therefore be quickly and easily obtained. Tropical dermatology is also dealt with at some length  
 279 pages. 17s. 6d.

## **J. M. HOLMES** **OBSTETRICS**

This new book covers the subject in three sections. (1) Pregnancy, (2) Labour, (3) Obstetric Operations. There are also important chapters on anaesthesia and analgesia, puerperal fever and psychiatry and child-bearing. An appendix of drugs used in obstetrics completes the book.  
 256 pages. 37 illustrations. 15s.

## **J. L. PINNIGER** **PATHOLOGY**

This is a short, up-to-date textbook of pathology which can be readily referred to for information on the basic abnormalities in the commoner diseases. The text is divided into two parts, the first covering general pathological facts and principles, and the second systematic pathology.  
 262 pages. 15s.

## **E. W. ANDERSON** **PSYCHIATRY**

This book deals with all aspects of psychiatry as practised today, including the greatly increased use of drugs, and the greater emphasis being placed on the social aspect, particularly since the Mental Health Act of 1959.  
 296 pages. 16s.

# VASOLASTINE

**for enzymatic control of cholesterol and fat metabolism  
in arteriosclerotic and atherosclerotic vessels**

VASOLASTINE contains enzyme systems which oxidize fatty acids, reduce arterial cholesterol content and tend to restore vascular elasticity

## INDICATIONS

**Arterio- and atherosclerosis,  
Cerebral stenosis,  
Cardio-vascular stenosis complicated with angina pectoris  
when caused by fat and cholesterol deposition,  
Fat and cholesterol metabolic imbalance generally,  
Post-thrombotic symptoms**  
In clinical and experimental trials, toxic and side-effects have not been observed.

## FORMULATION

*per ampoule:*

Enzymes of the lipid metabolism

20 mg.  $\approx$  8000 units

Amin-oxidase

20 mg.  $\approx$  4000 units

Tyrosinase

20 mg.  $\approx$  4000 units

Stabilizing solvent to 2 ml.

**Presentation:** Boxes of 6, 25 and 100 ampoules.

one capsule at breakfast  
curbs the day's appetite  
while relieving the stresses  
which often underlie overeating

As overeating is often rooted in emotional stress, the weight-reducing programme must do more than depress the appetite. *Durophet-M* contains laevo- and dextro-amphetamine (ratio 1:3), the most effective appetite depressant available today, and methaqualone, a calmativc which helps alleviate the patient's underlying tensions and frustrations. One capsule a day makes weight loss more certain. Capsules are available in two strengths stated in terms of laevo- and dextro-amphetamine content. Both contain 40 mg. methaqualone.

Basic NHS prices    12½mg. 20mg.  
bottles of 30 capsules 7/4    8/-  
                                 300 capsules 49/8    54/-

# "INSTANT BREATH"

## In the asthmatic attack — profound relief in seconds

One or two inhalations from *Medihaler-iso Forte* can provide relief of broncho-spasm comparable in speed and degree to that achieved by injection. Yet for the patient there is nothing simpler or more convenient to use whenever required. Each dose (0.4 mg. isoprenaline sulphate) contains over 80% by weight of particles between 2 and 5 microns in diameter — optimum for retention in the lungs. Treatment economy is assured because each vial delivers over 300 doses at a cost of less than  $\frac{3}{4}$ d. per dose.

*Medihaler-iso Forte, Medihaler-iso and Medihaler-epi* are now supplied with a new-style plastic oral adaptor.

## TRANSVASIN RELIEVES MUSCLE SPASM

Muscle spasm caused by physical injury or rheumatic lesions, including osteo or rheumatoid arthritis, is rapidly relieved by the application of Transvasin. The esters of nicotinic, salicylic and p-aminobenzoic acids penetrate the skin and are concentrated at the point of injury. Transvasin is an effective and economical therapy.

*Transvasin contains ethyl and n-hexyl nicotinate, ethyl p-aminobenzoate, 2% each, and tetrahydrofurfuryl salicylate 14%. The N.H.S. price of the 30g. tube is 2/6d and the cost of an average application of the cream is under 1d.*

RIKER LABORATORIES  
LOUGHBOROUGH LEICESTERSHIRE

# Abbott present a major new antihypertensive

Eutonyl (pargyline hydrochloride, Abbott) is a potent new anti-hypertensive agent. A large majority of patients with moderate to severe essential hypertension (even those resistant to other drugs) achieve significantly reduced systolic and diastolic pressure in the standing position, and often in the sitting and lying positions as well. The addition of Enduron (methyclothiazide, Abbott) permits a lower dosage, with fewer side effects. Eutonyl has a beneficial side effect in countering the depression which is often associated with hypertension, and in this respect alone offers a useful advance over other antihypertensive drugs, some of which themselves produce depression. Comprehensive literature is available on all aspects of this important new agent: dosage, side effects, precautions and the wide measure of agreement on its clinical efficacy even in the most difficult cases.

Eutonyl and Enduron are Registered Trade Marks.

Eutonyl tablets (25 mg pargyline hydrochloride) and Eutonyl-Ten tablets (10 mg pargyline hydrochloride) are supplied in bottles of 100.

**TRYPTIZOL**

Amitriptyline hydrochloride

REGD

**the antidepressant with intrinsic tranquillising properties**

TRYPTIZOL is an outstanding antidepressant, particularly valuable for its tranquillising effect on the anxiety and insomnia—characteristically early morning awakening—which so often accompany depression.

TRYPTIZOL is indicated in all forms and presentations of depression. Other symptoms which may be expected to respond well include functional somatic

complaints, loss of interest, loss of appetite, feelings of guilt, slowing of emotional and physical reactions.

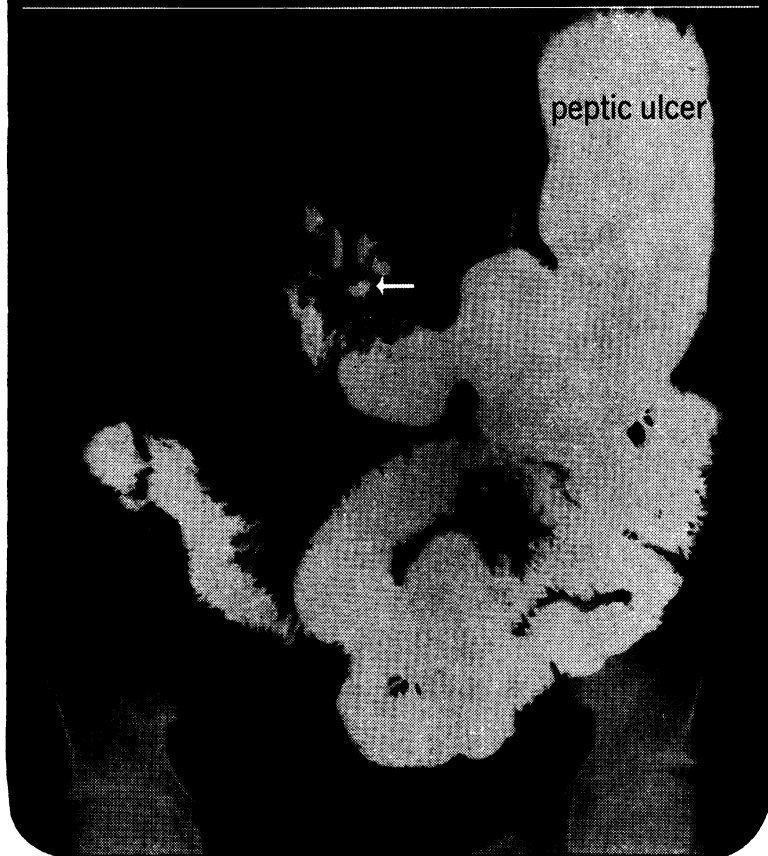

TRYPTIZOL is well-tolerated and serious toxic side reactions are extremely rare. It is *not* a monoamine oxidase inhibitor.

*TRYPTIZOL is supplied as tablets of 25 mg and 10 mg, as a syrup and as an injection. Detailed information on indications, dosage, administration, precautions and bibliography is available on request.*

MERCK SHARP & DOHME LIMITED, HODDESDON, HERTS

to check gastric hypersecretion

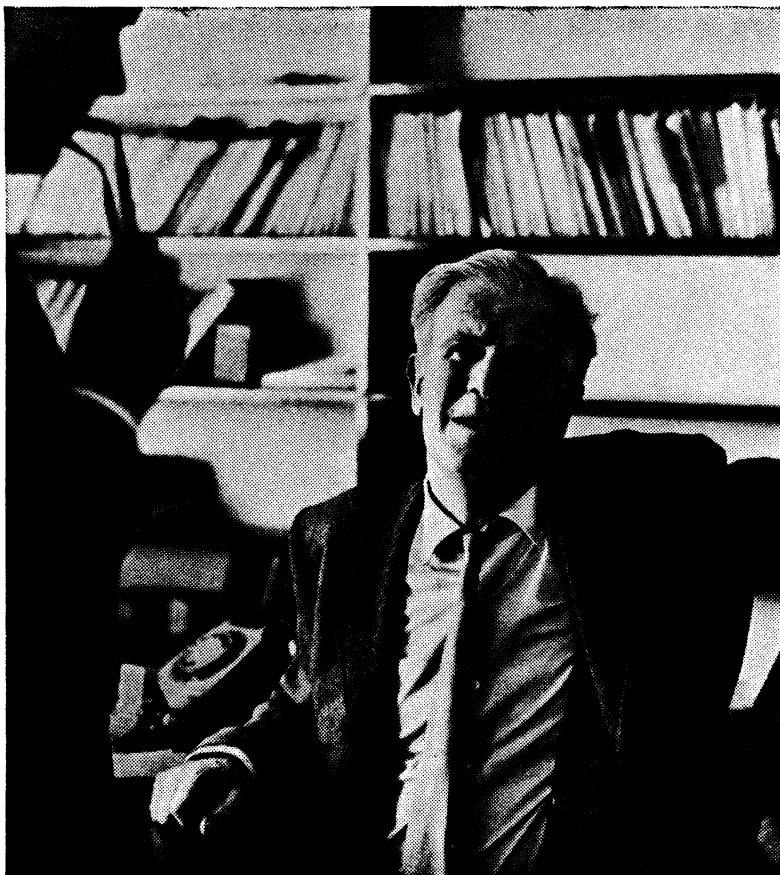

PORTYN<sup>\*</sup> produces marked depression of gastro-intestinal spasm, gastric secretion and hyper-motility, and, at effective dosage levels, the incidence of side-effects is unusually low.

PORTYN is thus recommended as an excellent adjunct in the symptomatic control of peptic-ulcer and gastro-intestinal spasm.
