

summer hazards

The warmer months of the year provide conditions suitable for the multiplication of bacteria on contaminated food and for the spread of contamination by flies; it is then that epidemics of bacterial food poisoning, bacillary dysentery and summer diarrhoea of infants are most frequent and widespread.

The organisms commonly responsible for such epidemics are sensitive to the combined action of streptomycin and sulphaguanidine.

The use of Guanimycin will rapidly eliminate the infecting organism and reduce the number of convalescent carriers.

GUANIMYCIN

Oral streptomycin sulphate with sulphaguanidine

In bottles to prepare 4 fluid ounces.

Lilly Barbiturates

TRADE MARK

Since the original synthesis of 'Amytal' over 30 years ago, continued research by Eli Lilly & Company has resulted in a wide and selective range of barbiturates.

Included in the Lilly range of Barbiturates are :—

'Pulvules' 'SECONAL SODIUM'

brand Quinalbarbitone Sodium

Quick onset—short duration.

$\frac{3}{4}$ gr. and $1\frac{1}{2}$ grs.

'Pulvules' 'SODIUM AMYTAL'

brand Sodium Amylobarbitone.

Medium onset and duration.

1 gr. and 3 grs.

'Pulvules' 'TUINAL'

brand Quinalbarbitone Sodium with

Sodium Amylobarbitone

Quick onset—medium duration.

$1\frac{1}{2}$ grs. and 3 grs.

Tablets 'AMYTAL'

brand Amylobarbitone

Medium onset—moderately long duration.

$\frac{1}{8}$, $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$, and $1\frac{1}{2}$ grs.

BASINGSTOKE, ENGLAND

The Climacteric

"... a mixture of the male and female hormones was more efficacious than oestrogen alone."

Brit. Med. Journ. 1953 (July 25), 2.214

The association of methyltestosterone and ethinylœstradiol in Mepilin produces a more complete response in the treatment of menopausal disorders than can be obtained by the use of oestrogens alone. An increased feeling of confidence and well-being is produced which is both mental and physical.

The presence of methyltestosterone enables a reduction in oestrogen dosage to be made; thus undesirable side effects such as breast turgidity and pelvic congestion are avoided and the risk of withdrawal bleeding is reduced.

‘MEPILIN’ TABLETS & ELIXIR

Each teaspoonful (4 ml.) of Mepilin Elixir and each Mepilin Tablet contains ethinylœstradiol 0.01 mg. and methyltestosterone 3 mg.

‘MEPILIN’ TABLETS

Bottle of 25 at 4/4 and
100 at 13/6

‘MEPILIN’ ELIXIR

Bottle of 4 fl.oz. at 6/- and
20 fl.oz. at 23/-
Basic N.H.S. prices

DOSAGE: Menopause and geriatric conditions: average cases—3 tablets or 3 teaspoonfuls daily. Premenstrual tension and dysmenorrhoea—2 tablets or 2 teaspoonfuls daily from 10th to 22nd day of the menstrual cycle.

Selection of **BUTTERWORTH Books**

KINNIER WILSON'S NEUROLOGY (Second Edition)

Edited by A. NINIAN BRUCE, F.R.C.P.(Edin.), D.Sc.(Edin.), M.D., F.R.S.(Edin.). With Foreword and new Chapter on Aphasia, Apraxia and Agnosia by Sir RUSSELL BRAIN, Bart., D.M.(Oxon.), F.R.C.P. In Three Volumes. Fully Illustrated. **£10 10s. net** per set.

The spectacular advances of recent years in neurology have called for a new edition of this great work, which has been revised throughout to cover all the most advanced thought in this sphere.

PAEDIATRICS for the Practitioner

Under the General Editorship of WILFRID GAISFORD, M.D., M.Sc., F.R.C.P., and REGINALD LIGHTWOOD, M.D., F.R.C.P., D.P.H. In Three Volumes and Index Vol. Fully Illustrated. **£13 10s. net** per set.

This new work, the first major paediatric textbook to be written specially for the practitioner, is designed to present the diagnoses and up-to-date treatment of all the common disorders of childhood and infancy, taking in also rare conditions. No aspect is neglected by the team of experts drawn from centres all over the country.

INDUSTRIAL MEDICINE AND HYGIENE

Edited by E. R. A. MEREWETHER, C.B.E., O.St.J., M.D., F.R.C.P., D.I.H., F.R.S.Ed.

In Three Volumes. Fully Illustrated. **£9 9s. net** per set.

This new work, with contributions from experts representing every branch of the speciality, offers a comprehensive and balanced view of the whole field, from legislative and statistical aspects, occupational diseases and hazards and psychology to accidents, safety measures, heating and ventilation and the effects of ionising radiations.

BRITISH PRACTICE IN RADIOTHERAPY

Under the General Editorship of Sir ERNEST ROCK CARLING, LL.D., F.R.C.S., F.R.C.P., F.F.R., B. W. WINDEYER, M.B., B.S., D.Sc., F.R.C.S., F.R.A.C.S., F.F.R., and D. W. SMITHERS, M.D., F.R.C.P., F.F.R.

Pp. xii+516+Index. 142 Illustrations. **£4 5s. net.**

The object of this new work is to present the achievements of radiotherapy in this country over the last twenty years, and to emphasize the growing co-operation between radiotherapists and their medical and surgical colleagues: the book follows the unusual form of setting out their views side by side.

MODERN TRENDS IN OPHTHALMOLOGY (Third Series)

Edited by ARNOLD SORSBY, M.D., F.R.C.S.

Pp. xii+331+Index. 111 Illustrations. Three colour plates.

£3 5s. net.

Improvements in diagnostic procedure, advances in surgical techniques, modern clinical and experimental pathology, current clinical aspects, and social problems are among the important questions covered in the new Series by an impressive team of international experts.

MODERN TRENDS IN PSYCHOSOMATIC MEDICINE

Edited by DESMOND O'NEILL, M.C., M.D., M.R.C.P., D.P.M.

Pp. xi+375+Index. 29 Illustrations.

£2 15s. net.

This work is the result of extensive research by doctors with a special interest in the relationship of mind and body in medicine, and it takes in numerous aspects including the psychosomatic approach in paediatrics and dermatology, emotion and eye symptoms, suggestion and hypnosis in obstetrics, anxiety and muscle tension and studies in ulcerative colitis.

BOOTS PURE DRUG CO LTD NOTTINGHAM ENGLAND

*New comprehensive treatment for
specific and non-specific diarrhoea*

'CREMOMYCIN'

'SULFASUXIDINE'-NEOMYCIN SUSPENSION

Trade Mark

*... combined antibacterial activities of
'Sulfasuxidine' and neomycin*

RAPID RELIEF

The action of 'Cremomycin' is prompt, complete and effective. Within a few hours, the combined bactericidal and bacteriostatic activity of 'Cremomycin' is concentrated in the intestinal tract. This concentration means effective action—and prompt relief for the patient.

PROMPT REMISSION

There are many obvious advantages (besides relief for the patient) in prompt recovery from diarrhoea: prevention of severe losses of body fluids; reduction of local irritation; protection against complications; avoidance of the spread of infective organisms.

Moreover, secondary constipation is not encountered after therapy with 'Cremomycin'.

Each 30 ml. (approximately 1 fl. oz.) contains:
'Sulfasuxidine' Succinylsulphathiazole 3 G., Colloidal
Kaolin 3 G., and Neomycin Sulphate 300 mg.
'Cremomycin' is supplied in bottles of 8 fluid ounces.

Descriptive literature will gladly be sent on request.
